ORIENT CEMENT

Orient Cement Limited is one of India's most exciting cement companies, and is constantly evolving as an efficient manufacturer, as a valued employer and as a trusted brand.

Origin

Following a demerger from Orient Paper & Industries Ltd. in 2012, Orient Cement has swiftly evolved to become one of the most exciting cement companies in India today.

Manufacturing facilities

The Company has three cement manufacturing plants in Devapur (Telangana), Chittapur (Karnataka) and Jalgaon (Maharashtra). The Company has an aggregate cement manufacturing capacity of 8 MTPA with a clinker manufacturing capacity of close to 6 MTPA.

The Company has outlined a clear agenda for growth, intending to reach a capacity of 15 MTPA in 5 years.

Certifications

The Company is a responsible cement manufacturer accredited with ISO 9001:2008, ISO 14001:2004 and OHSAS 18001:2007 standards. The Company regularly modernises its manufacturing infrastructure and equipment with the objective of enhancing operating efficiencies, maintaining product quality, conserving energy and lowering emissions. As a result of its efforts, the Company won the Total Plant Maintenance (TPM) Excellence award from JIPM, Japan, the second company in India to earn this distinction.

Sustainability

In 2017, the Company joined Cement Sustainability Initiative (CSI), a voluntary global CEO-led business initiative, operating under the umbrella of World Business Council for Sustainable Development (WBCSD). By joining CSI, Orient Cement has voluntarily accepted the responsibility to achieve higher and stringent goals towards environmental and social sustainability and has become part of a global mission to be a responsible contributor to global sustainability.

Markets

The Company sells its cement predominantly in the states of Maharashtra, Telangana, Karnataka, Andhra Pradesh, and Madhya Pradesh. It also sells cement in the states of Chattisgarh, Gujarat, Goa and Tamil Nadu.

Brands

The company produces two cement varieties (Ordinary Portland and Pozzolana Portland Cement) under the Birla.A1 Brand. The brand is synonymous with excellent quality, high resilience and robust load bearing capability. The Company has also delivered on its promise to customers of a significantly superior product that was recently launched under the brand Birla.A1 StrongCrete.

At Orient Cement, people are our biggest asset.

Our people are bringing their passion, pluck and persistence to our table.

This is making us one of the most exciting companies in India's cement industry.

Much of our outperformance is being derived from the fact that Orient Cement is a gender-inclusive company.

This is reflected in a rising proportion of women employees.

We provide our women employees equal opportunities – exciting roles and challenging assignments.

They are enriching our workplace, working together, delivering competently and exceeding expectations.

This Annual Report is dedicated to these outstanding achievers.

They are making our company an outperformer.

Read on for the inspiring stories of women at Orient Cement.

StrongCrete: behind the scenes

The project to create an ultra-strong product began with an unusual story of delegation.

In most instances, any management would have assigned the task of developing a case for the new business to experienced and wizened professionals.

The Company instead chose to delegate this breakthrough assignment to two relatively inexperienced women employees instead.

Apprehension prevailed.

'Is the dream worth pursuing?' asked one.

'Are we capable of doing this' countered another.

The two young women stuck it through. They examined various options. They addressed challenges. They dealt with what appeared insurmountable. And above all, they showed the courage to persist.

Following six months of hard

work, their first presentation was a disaster.

But instead of being written off, what they heard was meaningful advice instead:

'Make something valuable for the customers; don't take any shortcuts; don't create anything sub-standard.'

This advice was to become their guiding post. Each time they encountered a dilemma, the line clarified their approach and they forged ahead.

The result is brilliant beyond expectations: a superior high-performance product under the Birla.A1 StrongCrete brand. Reflected in positive feedback from customers, influencers and channel partners alike. Recognised by many as the possibly the best in the country.

And all because the management kept faith and encouraged its employees to experiment and excel.

The next frontier of ‘digital’

At Orient Cement, ‘digital’ has always been a way of life. Over the past few years, the Company has been increasingly leveraging digital solutions across various departments.

Today, digital technologies are pervasive across functions at Orient Cement: manufacturing, logistics, procurement, marketing, sales, technical services, finance and human resources.

More importantly, digitalisation has made a positive difference: enhanced data access, strengthened customer-centricity, increased cost efficiencies and enabled analytics-driven decision-making.

Through prudent selection and efficient implementation of technology, Orient Cement has gained an effective cutting-edge in a competitive marketplace. At the Company, a logistics optimiser enhances logistic efficiencies and optimises distribution costs. A

customer portal, an influencer management system and a sales force automation tool have helped serve customers better. A multi-language brand website, efficient use of social media, utilisation of search engine optimisation and analytics have improved marketing effectiveness. The use of cutting-edge technologies (machine learning, distributed architecture and Cloud) have enhanced the technology architecture.

Today, several of these initiatives are being nurtured and further developed by a dedicated Digital Transformation Team. Helmed equally by men and women, this team is also tasked with pushing the next frontier of ‘digital’. The driving principle isn’t ‘can we’ but ‘how can we’.

Our digital roadmap presents an exciting viewpoint: Orient Cement is addressing tomorrow, today.

“At Orient Cement, we provide opportunities to women as much as we provide them to men. This is because we believe that there is nothing that men can do that women cannot do equally well – or better.”

- CK Birla, Chairman

‘THERE IS A GREATER FEELING OF ‘I AM ORIENT CEMENT’ THAN EVER BEFORE’

AISHWARYA M

Assistant Manager, Internal Communications

I was a newcomer involved in marketing communication, when I was suddenly asked by the management: ‘Help the Company to talk with itself.’ This was initially terrifying. We had never attempted to address internal communication so directly before. In the beginning, I grappled with the confusion. But gradually, I began to trust my instinct. While being relatively inexperienced; I ensured we did not follow a template. The combination of empowerment and instinct showed the way: I helped establish novel communication channels like Large Format Displays (LFD), Workplace at Facebook and leadership connect programmes. Gradually, something fascinating began to emerge: Team members across locations started being more expressive, various topics from social to professional began to get communicated more, recognition from within teams and external organizations started to get shared online, the perceived hierarchies started disappearing and an even stronger culture of coherent cross-functional conversations emerged. Not surprisingly, what started out as a small experiment has led to a greater feeling of ‘I am Orient Cement’ than ever before– and all because the Company told a few freshers to ‘go out and explore’.

‘ORIENT CEMENT APPRECIATES A YOUNG EMPLOYEE’S CONTRARIAN PERSPECTIVE

AKHILA DOBBALI

Assistant General Manager, Logistics

I was a virtual novice when I was asked to oversee the formulation and execution of a mission-critical project: end-to-end implementation of an algorithmic plant-to-market allocation solution. The aim was two-fold: optimise distribution costs and empower the logistics team to place sourcing supply orders using the optimisation engine. Being a complex task, we engaged the sales, logistics as well as accounts and control functions. We worked together, assessed plant running and logistics costs, formulated an optimal plant-market mix and improved the servicing quotients of our plants. The exercise brought costs down significantly. I am proud of our achievement, realising that Orient Cement strives for inclusive growth and even appreciates the contrarian perspective that a young employee can bring in.

'I'M FROM INTERNAL AUDIT AND WAS ENGAGED IN A NEW BRAND LAUNCH!'

CHANDANA MS

General Manager, Internal Audit

I joined the organization four years ago in the Internal Audit function. My work profile required me to make various business processes more robust, interact and build strong relationships with stakeholders across locations and build awareness in the areas of processes, risks and compliances. Anyone in my position could have said 'What is so special about this role?' The surprise was when I was selected for the Chairman's Circle Leadership program, which provided me with the opportunity to work on a breakthrough project involving the launch of a new premium cement product. Consider the opportunity – I'm from internal audit and was engaged in a new brand launch! What this surely did for me was to grow me as a professional: provide exposure to varied areas like manufacture of cement, supply chain, market dynamics and brand management. More than anything, it helped me learn the art and the science of making friends and influencing people.

‘I WAS THE FIRST WOMAN EMPLOYEE AT THE DEVAPUR PLANT’

DEVIPRIYA S

Assistant Manager, Systems

I was brought up in Devapur and I grew up watching my father work for Orient Cement. Soon after, I completed my B Tech in Computer Science and was looking for employment. During some difficult times, the Company provided me with employment – I became the first woman employee at the Devapur plant, working there just like my father! Later, I was nominated as a core team member for SAP implementation and transferred to Hyderabad. There I became a key member in the implementation of Qlik Sense, an analytical tool providing easy access to comprehensive data used by the sales and operations teams. What has been special about my journey from a young girl to today is my connection with Orient Cement and the way it has empowered me to work across locations and enabled interactions with executives from various functions. There are truly no silos here!

‘THERE IS JUST ONE WORD TO DESCRIBE ORIENT CEMENT: ‘INCLUSIVE’

HARITHA S

Deputy General Manager, Civil

I was involved in the design and commissioning of the Chittapur cement plant along with a team of colleagues. The project would have intimidated anyone: it was a mammoth project that needed to be completed on schedule and within the budgeted cost. We worked hard, collaborated and addressed challenges. Failure was not an option. Those grueling months resulted in the Chittapur plant emerging as a showpiece. This happened only because Orient Cement provided challenging opportunities to all employees - equally. Gender and age were not disqualifications. Ability, enthusiasm and experience scored over everything else! There is just one word to describe Orient Cement: ‘inclusive’.

‘ORIENT CEMENT TAKES PEOPLE FROM WHAT THEY ARE TO WHAT THEY CAN BE’

NANDINI BHATTACHARJEE

Deputy Manager, Human Resources

I began my journey as a Management Trainee at Orient Cement four years ago, and what a journey it has been! The best thing about the Company is the balance between autonomy and handholding. I have had a rich learning experience in diverse fields like Learning & Development, Performance Management as well as Compensation & Talent Management. However Campus Recruitment & Engagement are the areas that I find most enjoyable and challenging. My colleagues and I engage with the recruits through creative collaterals, induction orientation and project assignment. Their smooth integration into the organisation enhances their productivity. Besides, the Company has also rolled out significant policy updates like ‘Work From Home’. The intent of all this is to create a greater inclusiveness and sensitise the workplace around women-friendliness, be it in the office or at the plants. My big take-home is that Orient Cement takes people from the level of what they are to the level of what they can be.

‘IN A TRADITIONALLY MALE DOMINATED BUSINESS, **WOMEN ARE EQUAL TO MEN!**’

PALLAVI GADUPUDI

Engineer, Production

Immediately after I joined Orient Cement, I was asked to collate daily production volumes and power consumption reports to arrive at an analysis and deeper understanding of raw material work flow and inventory requirements. I wondered: ‘why would a large company like this give this assignment to a trainee? What if I made a mistake? What if I could not meet the deadline? What if I failed to collate actionable data?’ I geared up to give it my best shot, when something amazing happened: my colleagues helped; we fostered interdepartmental collaboration and the senior management encouraged my efforts. Who would have thought that in a traditionally male dominated business, women are equal to men! If my team succeeded, it is because this place is different!

‘THERE IS NO GLASS CEILING AT ORIENT CEMENT’

PRANJAL D YADAV

Area Sales Manager

One aspect of my experience at Orient Cement that fills me with pride is that I am one of the few frontline sales women across the cement industry. What is even more fulfilling about this feather in my cap is that it has never been a limitation in any way. From generating cement sales to launching new incentive schemes, from building relationships across the distribution channel to fostering team spirit within our office, I have had a thoroughly enjoyable experience at Orient Cement. Not just that, I have also been recognized within the company as a potential leader through my selection into its esteemed “CEO Circle” leadership development programme. What does this say about the Company? It says that there is no glass ceiling here. There is nothing that can impede my growth here. I can be whoever I wish to be..

‘I DISCOVERED THAT I COULD PUSH LIMITS WHEN CHALLENGED’

SALONI KULSHRESTHA

Officer, Legal

In my early days at the Company, I was assigned to work on a case related to entry taxes. I was required to research legalities, precedent cases and probable arguments. The project was challenging on account of my being new to this space. We needed to research relevant details, find appropriate case laws and facts and meet senior officials in person to present our facts, findings and interpretations. Gradually, we resolved differences, modified processes to respond with agility and removed differences of opinion through proactive interaction. What I discovered of myself was that I could push limits when challenged. Imagine a cement company making it possible for me to realise that. Says something about this cement company!

‘I AM **REALLY EXCITED** ABOUT THE
NEXT FEW PROJECTS’

TANMAYEE VARPE

Senior Officer, Branding

s a management trainee, I was tasked with the development of corporate presentations that captured audience attention while conveying product characteristics. This was a challenge. I was the sole woman member to attend influencer meets with my colleagues in remote locations and smaller towns, understand the flow of presentations and observe audience responses. Based on their feedback, the presentations were structured around pictorial / audio-visual content. We engaged extensively with the technical team. The branding team provided their observations. The result was when the presentations were used, they flew. I am really excited about the next few projects!

‘WHEN A COMPANY TRUSTS AN INDIVIDUAL, THAT TRUST IS REPLICATED TEN-FOLD’

TRIPTI JAIN

Senior Manager, Branding

When I was told it was high time that Orient Cement revamped its online presence, I was pleasantly surprised. However, a still bigger surprise lay in store. I was told that I would have to play a key role in content development and brand promotion on the newly envisaged brand website. The objective: reach out to modern tech-savvy consumers. The challenge: convincing various stakeholders that digital marketing was imperative even in the cement industry today. The result: thanks to unflagging team support, we carried out the project flawlessly. It was a remarkable experience for a newcomer like me: it demonstrated that when a company trusts an individual, that trust is replicated ten-fold!

‘MY EXPERIENCE CAN ONLY BE
DESCRIBED IN ONE WORD: **EMPOWERING**’

UTKALIKA MOHANTY

Assistant General Manager, Business Excellence

M

y colleagues and I were provided an opportunity to develop a super-strong and high quality premium product to deliver to our customers. We needed to ensure three things: the product had to be manufactured without large operational dislocations; we had to launch a new brand positioning consistent with the superior product; and we were required to generate critical volumes even with the significantly higher prices compared to the standard product. The challenges were numerous: detailed planning, engagement with multiple stakeholders, various implications in making minor process changes in the old plant; managing marketability etc. There was a time when things seemed doomed. And then things turned: my courage and hard work paid off. The launch was an outstanding success. My experience can only be described in one word: empowering.

Orient Cement: A case study in gender inclusion

Many companies are driven by men.

Orient Cement is driven by both — women and men.

At many companies, women are provided safe mundane roles.

At Orient Cement, women are provided challenging opportunities.

In many companies, women are provided challenging projects when they have spent a long time at the Company.

At Orient Cement, we empower even the inexperienced to go out and achieve, irrespective of gender.

In many companies, it would be usual to pay women less than what men receive in equivalent positions.

At Orient Cement, we are an equal pay and opportunity providing company.

In many companies, even when women are assigned projects, they are seldom out in team-leading positions.

At Orient Cement, there are a number of projects that are led by women.

10 ways in which we have made Orient

1

Vision 2020

The Company is driving diversity with the objective to have 20% of its employee base comprising women by 2020

2

Created an inclusive workplace with mutual sensitivity and respect

The Company believes in diversity, providing equal opportunities for men and women

3

We are an equal opportunity employer with zero discrimination

Merit is the key word at Orient Cement; employees are provided opportunities regardless of their gender, race or religion.

4

Encouraging social responsibility

The Company works closely and also encourages engagement with Chaitanya Mahila Mandali, an NGO that cares for young female victims of trafficking

5

Flexibility in workplace timings

The Company practices a flexible approach on a need / case basis for women related to work timings, helping balance professional and personal lives

Cement a women-friendly company

6

Work from home flexibility

The Company permits ALL women to work from home two days a month, helping balance personal and professional responsibilities

7

Sabbatical leave availability

The Company permits women employees to avail a sabbatical leave on a need / case basis to address personal/family needs

8

Health and wellness

The 'doctor at work' programme comprises a full-time woman doctor employed at all plants and a visiting woman doctor at the Hyderabad office to address the medical needs of women employees

9

Strong policy support to enforce safety and offer conveniences

The Company instituted a robust Prevention of Sexual Harassment (POSH) policy coupled with a dedicated Internal Complaints Committee to address concerns. The company provides statutory maternity leave of 26 weeks, surrogacy and adoption leave of 12 weeks and crèche arrangements to enhance assistance

10

Three-tier safety for women at the workplace

The Company ensures personal safety - special provisions for night shifts, mandatory home drops after 9pm and CCTV monitoring at key workplace locations. The Company provides POSH and gender sensitivity training to all employees, special care for women to stay in guesthouses/hotels (even when not covered under their eligibility). The Company provides display of emergency contact numbers, self-defence classes and etiquette training

CHAIRMAN'S OVERVIEW

Chandrakant Birla, Chairman

This annual report – a dedication to the women who have helped build Orient Cement – is our way of saying that we are indeed grateful.

t Orient Cement, we have created an exciting workplace.

This workplace is influenced by fresh ideas, the ability to challenge the old and a new way of doing business.

The result is that the operative words at the Company are not ‘How much can we produce?’ but ‘How differently can we perform?’

When you extend this yardstick across every initiative, role, function, geography and hierarchy, you get the makings of a differentiated company.

One of the things that we take pride in at Orient Cement is in being an ‘opportunity enabler.’ This is about opening opportunities for people – challenging them with what they think they can not do, providing them with the confidence that seeds within them the idea that they can, networking them across teams that enhance the individual and finally get them to deliver in line with a raised benchmark.

At Orient Cement, we provide opportunities to women as much as we provide them to men. This is because we believe that there is nothing that men can do that women cannot do equally well – or better.

One of the big changes that we have made in the last few years is to consciously increase the number of women working with us. We are positioning them in decision-making roles, we are investing responsibilities in them and we are providing them with empowering opportunities.

The women of Orient Cement have only validated what we always believed – that empowered women drive change, decisiveness and prosperity.

This annual report – a dedication to the women who have helped build Orient Cement – is our way of saying that we are indeed grateful.

MANAGING DIRECTOR'S OVERVIEW

Experience will always be important but a few years ago we felt that we needed more workplace enthusiasm.

Much of the country's cement industry is seen as conventional: rules prevail over creativity, convention prevails over the untried and there is a premium for experience over enthusiasm. At Orient Cement, we attempted to create a balance: experience will always be important but a few years ago we felt that we needed more workplace enthusiasm.

We increased the recruitment of young talent and more

specifically, young women. This is reflected in the numbers: our average age has trended from 42.5 in 2014-15 to 37.2 today; the average age of new recruits has been 31.1 during this period; the proportion of women as new recruits has been rising.

The result is that we now are college campus by enthusiasm, factory shopfloor by seriousness and laboratory by the way we experiment. This youth and diversity helps us drive key changes at Orient Cement

The technology infusion

At Orient Cement, if there is a fundamental change between how we used technology in the past and now, it is the widespread democratisation of technology within: there are teams working on enhancing the proportion of procurement through the e-auction route, optimising costs; there are teams focused on creating superior logistics routes to reach markets working with analytics; there are teams reaching out to primary customers through

various social media; there are teams working on a range of possibilities to increase use of alternative fuels; there is a greater respect for what numbers are telling us in terms of demand cycles, competitive action and own performance. This is a completely new way of working and I am happy to communicate that the number of business gains being generated are increasing every year.

Transforming our brand

At Orient Cement, we believe that our brands must deliver a superior performance in the hands of our consumers; our brands must also generate superior realisations in line with this performance.

This intent is reflected in the development of Birla.A1 StrongCrete, our most decisive product launch ever. The launch of Birla.A1 StrongCrete promises to be a game-changer, which within a short time has impressed customers, influencers and channel partners.

I am proud of the fact that the launch of Birla.A1 StrongCrete was driven by young professionals and the result is that Birla.A1 StrongCrete can completely transform the Company's marketplace presence: graduate Orient Cement's brand to the top of the table, create a new premium price point and through a rub-off, lift the existing established brand too – this is the power of the distinctive youthfulness within our company.

Caring and sharing

At Orient Cement, we believe that our sense of caring and sharing completes us. We invest in our neighbourhood communities through initiatives in education, health & hygiene, infrastructure development, employability and livelihoods.

While we have run a high-quality school for around 1600 tribal children in our old plant in Telangana, we are now establishing a new school at our plant in Karnataka, demonstrating our commitment to building society from the grassroots.

We afforested areas, enhanced plant safety, provided truckers (employees of contractors) with resting amenities, funded the construction of dispensaries and toilet blocks and provided scholarships to the deserving. Besides, we funded the construction of the Chittapur – Itaga road, which we believe will improve rural access to commercial nodes in the district, enhancing employment and market access, strengthening the rural economy.

Overview

I cannot but keep emphasising the point that at Orient Cement, we believe that we can't wait for the markets to offer us attractive platforms; we have to go out and create opportunities, create brands and create markets.

I must end with the Persian quote: 'Tafawut ast main-i-shanidan-i-man-o-to. Tu bastan-i-dar, o, man fatahe-bab me shanwam.' (What you and I hear are different: You hear the sound of closing doors, But I of doors that open).

My sentiments exactly.

Deepak Khetrpal
Managing Director

I cannot but keep emphasising the point that at Orient Cement, we believe that we can't wait for the markets to offer us attractive platforms; we have to go out and create opportunities, create brands and create markets.

HOW WE HAVE SELECTED TO DO **BUSINESS**

Culture reflected in values

We empower employees with controls, have the foresight and persistence to face challenges and make choices amidst difficulties.

Diversity

We drive inclusive growth at Orient Cement. Women undertake diverse responsibilities at the Company and their proportion in the workforce is expected to grow significantly.

Open communication and interaction

We drive engagement and foster co-operation and harmony among employees through open platforms such as sports & cultural events and Workplace by Facebook

Investing in people

We continuously invest in our people, nurture talent, recognise and reward achievements and run programs for career development.

Investment in communities

We consciously invest in communities around our locations with a focus on health, education, infrastructure and social support to make lives better.

Capacity growth

The Company has outlined a clear agenda for growth, intending to reach a capacity of 15 MTPA in 5 years.

Operational excellence

We have one of the best operating costs in industry today, driven by a passion to do more with less and achieve the best operating metrics.

Customer focus

We have launched a new product (Birla.AI StrongCrete), offered better service levels through direct dispatches and improved turn-around time.

Investment in brand and channels

We consolidated our position in our core markets and expanded into new markets like Karnataka and MP in the last few years.

We have used television commercials to connect with local audiences and used social media extensively to connect with customers, dealers and influencers alike.

Streamlined processes using technology

We used digital tools to optimise processes, drive efficiencies across the value chain and reach our customers better.

Financial highlights

Net Revenue

(₹ cr)

19% growth over the last year

FY15		1510.1
FY16		1470.0
FY17		1887.0
FY18		2242.6

Definition

Total revenue after deducting excise duties/GST.

Why we measure

This measure reflects our ability to understand market trends and service customer requirements with our products, through responsive manufacturing and competent supply chain management.

Performance

Our net revenue increased 19% per cent to ₹2242.6 cr in FY 18, driven by additional volumes from our newest plant and better prices.

Value impact

Creates a robust growth engine on which to build profits

Net Profit

(₹ cr)

Returned to profitability this year

FY15		195
FY16		62
FY17		(32)
FY18		44

Definition

Profit reported during the year after deducting all expenses and provisions.

Why we measure

It highlights the strength in the business model in generating ultimate value for its shareholders.

Performance

The company reverted back to net profitability this year, even after accounting for depreciation

and interest cost linked to capacity expansion. The commissioned capacities are now fully operational and with a recovery in market demand, net profit is expected to grow further in the years ahead.

Value impact

Direct correlation to value attributable to shareholders and available to support further investment in growth.

EBITDA

(₹ cr)

71% growth over the last year

FY15		313
FY16		193
FY17		190
FY18		325

Definition

Earning before the deduction of interest, depreciation, extraordinary items and tax.

Why we measure

It is a parameter that showcases the Company's ability to optimise business operating costs despite inflationary pressures, which can be easily compared with the retrospective average and sectoral peers.

Performance

Previously the decline in EBITDA was due to adverse movement of prices in specific regions and costs

related to the optimization of new capacity. Specific initiatives along with a recovery in prices in our core markets has enhanced the EBITDA to ₹325 crore this year.

Value impact

Measure of the cash produced by the operating business, before interest or depreciation that is internally available to fund further capital expenditure and investments in the business going forward, before requiring external funding.

EBITDA Margin

(%)

442 bps increase over the last year

FY15		20.7
FY16		13.1
FY17		10.1
FY18		14.5

Definition

EBITDA margin is a profitability ratio used to measure a company's pricing strategy and operating efficiency. Higher the operating margin, better for the Company.

Why we measure

The EBITDA margin gives an idea of how much a company earns (before accounting for interest and taxes) on each rupee of sales.

Performance

The company reported a 442 bps increase in EBITDA margin in FY18.

Value impact

Demonstrates the efficiency of a company's core operations relative to revenue generated in the market.

ROCE (%)

585 bps increase over the last year

FY15		31.2
FY16		7.6
FY17		3.1
FY18		9.0

Definition

It is a financial ratio that measures a company's profitability and the efficiency with which its capital is employed in the business.

Why we measure

ROCE is a useful metric for comparing profitability across companies based on the amount of capital they use - especially in capital-intensive sectors.

Performance

The company reported a 585 bps growth in ROCE in FY18 on the back of better operating profits as described above.

Value impact

Enhanced ROCE can potentially drive valuations and perception.

Debt cost (%)

80 bps reduction over the last year

FY15		9.9
FY16		10.0
FY17		10.1
FY18		9.3

Definition

This is derived through the calculation of the average cost of the consolidated debt on the Company's books.

Why we measure

This indicates the confidence of bankers and other debt providers in the robustness of our business model, translating into a

progressively lower debt cost (potentially leading to higher profit margins).

Performance

The company's debt cost has reduced by 80 bps in FY18.

Value impact

Strengthened ability to service debt, enhanced credit rating for successive declines in debt cost.

Interest cover (x)

Increased over the last year

FY15		4.7
FY16		1.7
FY17		1.5
FY18		2.7

Definition

This is derived through the division of EBIDTA by interest outflow.

Why we measure

Interest cover indicates the Company's comfort in servicing interest, the highest the better.

Performance

The company's interest

cover has improved this year both on account of better operating profits and slightly lower debt cost.

Value impact

Higher number indicates strengthened ability to service debt reflecting either improved cash flows or reduced interest costs or both.

Gearing (x)

Strengthened over the last year

FY15		1.1
FY16		1.2
FY17		1.3
FY18		1.2

Definition

This is derived through the ratio of debt to net worth (less revaluation reserves).

Why we measure

This is one of the defining measures of a company's financial health, indicating the ability of the Company to remunerate shareholders over debt providers (the lower the gearing the better). In turn, it indicates the

ability of the Company to sustain growth in profits, margins and shareholder value.

Performance

The Company's gearing strengthened from 1.31 in FY17 to 1.24 in FY18.

Value impact

Enhanced shareholder value by lowering liabilities.

COMMUNITY ENGAGEMENT AT ORIENT CEMENT

At Orient Cement, engagement goes beyond our people and customers.

A responsible organisation, the Company actively engages with the local communities around its manufacturing locations to make their lives better.

A dedicated CSR committee makes recommendations for welfare and development activities under themes of education, health & hygiene, infrastructure development and employability and livelihood.

At Devapur, the Company has a school imparting education in English & Telugu. Material help was also extended for the construction of government schools in Devapur. A free bus service was provided for students of schools & colleges at Mancherla and a scholarship scheme was announced for meritorious students.

Orient Cement operates a free to use dispensary at Devapur providing medical facilities, arranging transport for patients from villages and conducting many medical camps in Devapur and surrounding villages.

During the Vanam Manam event, 2215 tree saplings were planted near Devapur. In line with 'Swachh

Bharat', numerous cleaning activities were organised and conducted by employees to improve health and hygiene and motivate the community. Toilet blocks were constructed in government schools, in Sircherla and the Company helped with the maintenance of a Sulabh complex.

At Chittapur, Orient Cement improved infrastructure, engaged in community development and offered scholarships to deserving and meritorious students in nearby schools.

The six kilometre stretch of Chittapur-Itaga road was reconstructed with concrete. The Company engaged with anganwadis and self-help groups to impart soft skill training to children, distribute sewing machines to women, distribute uniforms to students at anganwadis, conduct teacher's development training at Gulbarga and conduct awareness activities on waste management.

It is through such initiatives that the Company extends its engagement with communities and strives to make a positive difference in the lives of people.

Development activities focus on education, health & hygiene, infrastructure development and employability and livelihood.

RESOLVED FURTHER THAT the Securities issued in foreign markets shall be deemed to have been made abroad and / or in the market and / or at the place of issue of the Securities in the international market and may be governed by the applicable laws.

RESOLVED FURTHER THAT in the event of issue of GDRs / ADRs, the pricing shall be determined in compliance with principles and provisions set out in the Issue of Foreign Currency Convertible Bonds (through Depository Receipt Mechanism) Scheme, 1993, as amended from time to time and other applicable provisions, as amended from time to time.

RESOLVED FURTHER THAT in the event the equity shares are issued in the course of QIP under Chapter VIII of SEBI (ICDR) Regulations, as amended from time to time, the pricing shall be determined in compliance with principles and provisions set out in Regulation 85 of Chapter VIII of the SEBI (ICDR) Regulations, as amended from time to time. The Company may offer a discount of not more than 5% (Five percent) on the price calculated for the QIP or such other discount as may be permitted under SEBI (ICDR) Regulations, as amended from time to time.

RESOLVED FURTHER THAT in the event the equity shares are issued in the course of QIP under Chapter VIII of SEBI (ICDR) Regulations, as amended from time to time, the relevant date for the purpose of the pricing of the equity shares shall be the meeting in which the Board decides to open the issue.

RESOLVED FURTHER THAT the Company may enter into any arrangement with any agencies or bodies as are authorized by the Board for the issue of GDRs and / or ADRs represented by underlying equity shares in the share capital of the Company with such features and attributes as are prevalent in international / domestic capital markets for instruments of this nature and to provide for the tradability and free transferability thereof in accordance with market practices as per the domestic and / or international practice and regulations, and under the norms and practices prevalent in the domestic/ international capital markets and subject to applicable laws and regulations and the Articles of Association of the Company.

RESOLVED FURTHER THAT for the purpose of giving effect to the above resolutions, the consent of the Company be and hereby accorded to the Board to do all such acts, deeds, matters and things including but not limited to finalization and approval of the offer documents(s), private placement offer letter, determining the form and manner of the issue, including the class of investors to whom the Securities are to be issued and allotted, number of Securities to be allotted, issue price, face value, fixing the record date, execution of various transaction documents, as the Board may in its absolute discretion deem fit and to settle all questions, difficulties or doubts that may arise in regard to the issue, offer or allotment of Securities and utilization of the proceeds as it may in its absolute discretion deem fit.

RESOLVED FURTHER THAT the Securities to be created, issued, allotted and offered in terms of this Resolution shall be subject to the provisions of the Memorandum and Articles of Association of the Company.

RESOLVED FURTHER THAT the equity shares shall be listed with the stock exchanges, where the existing Equity Shares of the Company are listed and the same shall rank pari passu with the existing Equity Shares of the Company.

RESOLVED FURTHER THAT in the event the Equity Shares are issued in the course of rights issue, the Board shall be authorized to determine the rights entitlement ratio, issue price, issue size, number of Equity Shares, record date, issue period, any other terms of rights issue or any matters pertaining to the rights issue.

RESOLVED FURTHER THAT in the event the Equity Shares are issued in the course of rights issue, if the Equity Shares are not subscribed, the same may be disposed of by the Board in such manner which is not dis-advantageous to the shareholders and the Company.

RESOLVED FURTHER THAT the approval of the Company is hereby accorded to the Board to appoint merchant bankers, underwriters, depositories, custodians, registrars, trustees, bankers, lawyers, advisors and all such agencies as may be involved or concerned in the issue and to remunerate them by way of commission, brokerage, fees or the like (including reimbursement of their actual expenses) and also to enter into and execute all such arrangements, contracts/ agreements, memorandum, documents, etc., with such agencies, to seek the listing of Securities on one or more recognized stock exchange(s), to affix common seal of the Company on any arrangements, contracts/ agreements, memorandum, documents, etc. as may be required.

RESOLVED FURTHER THAT the issue of Securities, which are convertible into Equity Shares at a later date, shall be, inter alia, subject to the following terms and conditions:

- (a) In the event the Company is making a bonus issue by way of capitalization of its profits or reserves prior to the allotment of the Equity Shares, the number of Equity Shares to be allotted shall stand augmented in the same proportion in which the equity share capital increases as a consequence of such bonus issue and the premium, if any, shall stand reduced pro tanto;
- (b) In the event of the Company making rights offer by issue of Equity Shares prior to the allotment of the Equity Shares, the

entitlement to the Equity Shares will stand increased in the same proportion as that of the rights offer and such additional Equity Shares shall be offered to the holders of the Securities at the same price at which they are offered to the existing shareholders;

- (c) In the event of merger, amalgamation, takeover or any other re-organization or restructuring or any such corporate action, the number of Equity Shares, the price, and the time period as aforesaid shall be suitably adjusted; and
- (d) In the event of consolidation and/or division of outstanding Equity Shares into smaller number of Equity Shares (including by way of stock split) or re-classification of the Securities into other Securities and/or involvement in such other event or circumstances which in the opinion of concerned stock exchange requires such adjustments, necessary adjustments will be made.

RESOLVED FURTHER THAT for the purpose of giving effect to the above, the Board in consultation with the merchant banker(s), advisors and/or other intermediaries as may be appointed by the Company in relation to the issue of Securities, be and is hereby authorised on behalf of the Company to take all actions and do all such acts, deeds, matters and things as it may, in its absolute discretion, deem necessary, desirable or expedient for the issue and allotment of Securities and listing thereof with the stock exchanges or otherwise as may be required in relation to the issue and to resolve and settle all questions and difficulties that may arise in the issue, offer and allotment of Securities, including finalization of the number of Securities to be issued in each tranche thereof, form, terms and timing of the issue of Securities including for each tranche of such issue of Securities, identification of the investors to whom Securities are to be offered, utilization of the proceeds and other related, incidental or ancillary matters as the Board may deem fit at its absolute discretion, to make such other applications to concerned statutory or regulatory authorities as may be required in relation to the issue of Securities and to agree to such conditions or modifications that may be imposed by any relevant authority or that may otherwise be deemed fit or proper by the Board and to do all acts, deeds, matters and things in connection therewith and incidental thereto as the Board in its absolute discretion deems fit and to settle any questions, difficulties or doubts that may arise in relation to the any of the aforesaid or otherwise in relation to the issue of Securities.

RESOLVED FURTHER THAT the Board be and is hereby authorised to delegate (to the extent permitted by law) all or any of the powers herein conferred to any officer of the Company."

III. Other information
(1) Reasons of loss or inadequate profits

The country's cement industry is witnessing increasing competition on account of the geographic concentration of cement plants, supply overhang and low levels of capacity utilization. Increased competition can create pressure on margins, market share etc. Increase in the costs of raw material, power and fuel due to inflation or global price trends may impact profitability. Further, the Indian cement industry is labour-intensive; it is exposed to health and injury risks due to accidents or negligence. As a result of which there are likely to be losses or inadequate profits during his tenure of appointment.

(2) Steps taken or proposed to be taken for improvement

- The Company is leveraging its expertise and experience, investing continuously in enhancing the equity of its Birla A1 brand by focusing on quality, cost, timely delivery, customer service, advertising and brand promotion. The

Company is investing in marketing and promotions to sustain brand equity in its areas of operation, strengthen brand salience in new markets and enhance its competitiveness.

- (a) The Company is employing various means to reduce the impact of rising costs through better fuel sourcing processes, dynamic fuel mix capabilities to capitalise on emerging price trends and the use of alternative fuels.
- (b) As regards labour problems, the Company has implemented various measures which include the development and implementation of critical safety standards across units and project sites, establishment of processes for safety training across levels, promotion of a safety culture for staff members, and contract workers with appropriate insurance coverage.

(3) Expected increase in productivity and profits in measurable terms

The renewed push by the government in various construction and infrastructure initiatives, augurs well for the sector in the years ahead. It is expected that given the outlook for cement demand, the Company will witness robust growth led by demand recovery. Existing plants in Jalgaon, Devapur and Chittapur are expected to gain from price improvement across the markets. With the expected demand recovery and the Company being one of the low cost cement producers, it is expected that the profitability in the coming year is likely to improve.

All documents relevant for remuneration are open for inspection at the Registered Office of the Company on all working days (Monday to Friday) during normal business hours (between 10:00 A.M. and 5:30 P.M.) upto date of the Annual General Meeting.

Mr. Khetrpal (DIN 02362633) is a non-executive Director, of HIL Limited and Orient Electric Limited; and Non-Executive Independent Director of Oriental Bank of Commerce. Mr. Khetrpal along with his relatives does not hold any shares in the Company nor has any relationship with any of the Directors of the Company. Mr. Khetrpal has been granted 8,31,900 stock options convertible into equivalent number of equity shares of the Company in terms of the Employees Stock Option Scheme 2015.

Mr. Khetrpal (DIN 02362633) is directly concerned and interested in this resolution, as it relates to his remuneration. Except Mr. Khetrpal (DIN 02362633), no other Director or Key Managerial Personnel of the Company and their relatives are in any way concerned or interested in the proposed resolution.

The Board recommends the Special Resolution set forth in Item no. 6 of the Notice for the approval of the members.

Item No. 7

The Company, in accordance with its vision statement, proposes to achieve 15 Million Ton per annum cement capacity. Towards this objective, the Company is continuously looking at organic and inorganic growth opportunities. In order to fund the growth, there would be need to raise funds through issue of equity shares or equity linked securities. The Company proposes to raise the capital for the purpose of capital expenditure for ongoing and future expansion projects, acquisition(s), working capital, repayment of loans and for general corporate purposes.

In this regard, the Company has been exploring various avenues for raising funds by way of issue of equity shares ("Equity Shares") and /or Global Depository Receipts ("GDRs") and /or American Depository Receipts ("ADRs") ("Securities") to all eligible investors including but not limited to existing equity shareholders as on record date, residents and / or non-residents, whether institutions, incorporated bodies, foreign institutional investors, qualified institutional buyers, banks, mutual funds, insurance companies, pension funds, trusts, stabilizing agents and / or otherwise and / or a combination thereof, whether or not such investors are members, promoters, directors or their relatives / associates of the Company in the course of domestic and / or international offerings through public issue and / or private placement and /or rights issue and / or qualified institutional placement ("QIP") and / or any other permitted modes through prospectus and/or an offer document and / or private placement offer letter and/or such other documents/writings/ circulars / memoranda in such manner, at such time or times in such tranche or tranches for an amount not exceeding ₹500 crores (Rupees five hundred crores only), inclusive of permissible green shoe option, for cash and at such premium / discount, as applicable, as the Board deems fit and on such terms and conditions as may be determined and deemed appropriate by the Board in its absolute discretion at the time of such issue and allotment considering the prevailing market conditions and other relevant factors. The Equity Shares shall rank pari passu with the existing equity shares of the Company.

In the event of the issue of the Equity Shares as aforesaid by way of QIP, it will be ensured that:

- a) The relevant date for the purpose of pricing of the Equity Shares would, pursuant to Chapter VIII of the SEBI (ICDR) Regulations, be the date of the meeting in which the Board or duly authorised committee thereof decides to open the proposed issue of Equity Shares;
- b) The pricing for this purpose shall be in accordance with regulation 85 of Chapter VIII of the SEBI (ICDR) Regulations. The Company may offer a discount of not more than 5% (Five percent) on the price calculated for the QIP or such other discount as may be permitted under SEBI (ICDR) Regulations, as amended from time to time;
- c) The issue and allotment of Equity Shares shall be made only to Qualified Institutional Buyers (QIBs) within the meaning of SEBI (ICDR) Regulations and such Equity Shares shall be fully paid up on its allotment;
- d) The total amount raised in such manner and all previous QIPs made by the Company in a financial year would not exceed 5 times of the Company's net worth as per the audited balance sheet for the previous financial year;
- e) The Equity Shares shall not be eligible to be sold for a period of 1 year from the date of allotment, except on a recognized stock exchange or except as may be permitted from time to time by the SEBI (ICDR) Regulations.
- f) The Equity Shares shall be allotted within 12 months of the date of passing of the shareholders resolution.

For making any further issue of shares to any person(s) other than existing equity shareholders of the Company approval of members is required to be obtained by way of passing a special resolution, in pursuance to section 62 (1) (c) of the Companies Act.

The proposed issue is in the interest of the Company and your Directors commend the resolution for your approval.

None of the Directors and Key Managerial Personnel of the Company and their relatives may be deemed to be concerned or interested in the proposed resolution, except to the extent of their respective shareholdings in the Company, if any.

Therefore, the Board recommends the Special resolution set forth in Item No. 7 of the Notice for the approval of the members.

BUSINESS AND FINANCIAL PERFORMANCE

Post demonetisation, the cement demand from the housing sector continued to remain subdued and was further aggravated by introduction of policies like RERA and GST. The ban on the sand mining in several states also impacted cement demand. However, the Government's push on execution of large infrastructure projects revived the demand in the second half of the year and coupled with the low base from demonetisation last year, contributed to an overall demand growth of over 6% for the full year.

On the cost front, fuel prices continued to rise during the year as a consequence of the increase in the global energy prices, adversely impacting the profit margins of the industry as a whole.

In this backdrop, the key business and financial highlights of your Company for FY18 are as under:

- Total sales volume for the year stood at 57.46 Lac tons against 55.52 Lac tons in FY17, a growth of around 3.5%.
- We continue to focus on PPC cement production in line with your Company's commitment to environmental

sustainability. 75% of cement volume was sold as PPC from the old operations and while PPC sales from relatively new operations are also scaling up steadily to reach 47% for the year.

- Net sales realisation for the year was ₹3858 per ton, higher as compared to ₹3369 per ton last year.
- Variable production cost was higher largely on account of higher fuel prices.
- Despite an extremely challenging year in terms of demand, the overall capacity utilisation of the Company stood at 72% for the year as compared to 69% during last year.
- EBITDA for the year was ₹32541 Lac as compared to ₹19039 Lac during the previous year largely driven by better sales realisation.
- Net profit for the year was ₹4422 Lac compared to net loss of ₹3210 Lac during the last year.

The construction work for the Chittapur railway siding and the township for employees started during the year and is expected to complete in the second half of FY19. We are also evaluating the setting up of waste heat recovery plants at both Devapur and Chittapur to optimise power cost and reduce our dependence on the fossil fuel.

DIVIDEND

Your Directors are pleased to recommend a final dividend amounting to ₹0.75/- (75%) per equity share of face value of Re. 1/- each for the year ended 31st March, 2018, subject to approval of shareholders at the forthcoming annual general meeting of the Company as against dividend of ₹0.50/- (50%) per equity share paid in the immediately preceding year.

The Register of Members and Share Transfer Books of the Company will remain closed from Monday, 13th day of August, 2018 to Friday, 17th day of August, 2018, both days inclusive, for determining the entitlement of the shareholders to the final dividend for financial year 2017-18.

BOARD OF DIRECTORS, ITS COMMITTEES AND MEETINGS THEREOF

The Company has a professional Board with an optimum combination of executive, non-executive and independent directors (including one woman director) who bring to the table the right mix of knowledge, skills and expertise. The Board provides strategic guidance and direction to the Company in achieving its business objectives and protecting the interest of the stakeholders. The Board is also supported by four Committees of directors viz. the Audit Committee, the Nomination & Remuneration cum Compensation Committee, the Corporate Social Responsibility Committee and the Stakeholders' Relationship Committee.

One meeting of the Board of Directors is held in each quarter. Additional meetings of the Board/Committees are convened as may be necessary for the proper management of the business operations of the Company. A separate meeting of independent directors is also held at least once in a calendar year to review the performance of non-independent directors, the Board as a whole and the Chairman.

During the financial year ended 31st March, 2018, the Board of Directors met 6 (six) times viz. on 5th May 2017, 26th July 2017, 8th August 2017, 2nd November 2017, 29th January 2018 and 27th March, 2018. The intervening gap between the meetings was within the period prescribed under the Companies Act, 2013 and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

A detailed update on the Board and its Committees' composition, number of meetings held during the financial year 2017-18 and attendance of the directors at these meetings is provided in the Report on Corporate Governance.

CHANGES IN DIRECTORS

In terms of the provisions of section 152 of the Companies Act, 2013 and in terms of the Articles of Association of the Company, Mrs. Amita Birla (DIN 00837718), a non-executive director of the Company, is liable to retire by rotation at the ensuing Annual General Meeting of the Company and being eligible, offers herself for re-appointment. The Board of Directors recommends her re-appointment for the consideration of the members of the Company at the ensuing Annual General Meeting.

Mr. Desh Deepak Khetrpal (DIN 02362633) was re-appointed as Managing Director & CEO of the Company w.e.f 1st April, 2015 for a period of 5 (five) years. However, his remuneration was subject to revision every year. On the recommendation of the Nomination & Remuneration cum Compensation Committee, the Board of Directors in their meeting held on 3rd May, 2018, recommended revision in Mr. Khetrpal's remuneration for shareholders' approval. The resolution seeking consideration of Mr. Khetrpal's remuneration has been included in the Notice of the Annual General Meeting. The Board of Directors recommends the resolution for your approval.

During the financial year, there was no change in the constitution of the Board of Directors of the Company except Mr. I.Y.R. Krishna Rao (DIN 00481367) was appointed as an Additional Director w.e.f. 5th May, 2017. The appointment of Mr. I.Y.R. Krishna Rao as an Independent Director not liable to retire by rotation was confirmed by the shareholders in the Annual general Meeting held on 23rd September 2017.

DETAILS OF ESTABLISHMENT OF VIGIL MECHANISM / WHISTLE BLOWER POLICY

Your Company has formulated a vigil mechanism through a Whistle Blower Policy to deal with instances of illegal practices, unethical behaviour, actual or suspected fraud or violation of the Company's Code of Conduct or Ethics Policy.

Adequate safeguards are provided against victimization to those who avail of the mechanism. The details of the Whistle Blower Policy are explained in the Corporate Governance Report. The Whistle Blower Policy is available on Company's website and can be accessed through the web link: <http://orientcement.com/investors/>.

AUDIT COMMITTEE

The Company has a duly constituted Audit Committee in line with the provisions of the Companies Act, 2013 and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. The primary objective of the Committee is to monitor and provide effective supervision of the Management's financial reporting process, to ensure accurate and timely disclosures, with the highest level of transparency, integrity and quality of financial reporting. The Committee met four (4) times during the year. Detailed information pertaining to the Audit Committee has been provided in the Report on Corporate Governance.

POLICY ON DIRECTORS' APPOINTMENT AND REMUNERATION

The Company endeavours to have an appropriate mix of executive, non-executive and independent directors, so as to

have independence on the Board and separate its function of governance from that of management. The selections and appointments on the Board of the Company are done on the recommendation of the Nomination & Remuneration cum Compensation Committee. The appointments are based on meritocracy and the candidates are considered against objective criteria, having due regard to the benefits of diversity on the Board. While evaluating the candidature of an independent director, the Committee abides by the criteria for determining independence as stipulated under the Companies Act, 2013 and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. In case of re-appointment of directors, the Board takes into consideration the results of the performance evaluation of the directors.

The copy of the Nomination & Remuneration Policy for Directors, KMPs and Senior Management is attached as **Annexure 'I'** to the Corporate Governance Report.

Dividend Distribution Policy

1. BACKGROUND, PURPOSE, OBJECTIVES AND SCOPE

The equity shares of the Company are listed on National Stock Exchange of India Limited and BSE Limited. SEBI vide its Notification No. SEBI/ LAD-NRO/GN/2016-17/008 dated July 08, 2016 has amended the Listing Regulations by inserting Regulation 43A in order to make it mandatory to have a Policy in place by the top five hundred listed companies based on their market capitalization. Considering the provisions of the aforesaid Regulation 43A, the Board of the Company recognizes the need to lay down a broad framework for considering decisions by the Board of the Company, with regard to distribution of dividend to its shareholders and/ or retaining or plough back of its profits. The Policy also sets out the circumstances and different factors for consideration by the Board at the time of taking such decisions of distribution or of retention of profits, in the interest of providing transparency to the shareholders. The intent of the Policy is to broadly specify the following:

- The circumstances under which the shareholders of the Company may or may not expect dividend;
- Internal and external factors including financial parameters that shall be considered while declaring dividend;
- Policy as to how the retained earnings shall be utilized;
- Parameters that shall be adopted with regard to various classes of shares.

Any deviation on elements of this Policy in extraordinary circumstances, when deemed necessary in the interests of the Company, along with the rationale will be disclosed in the Annual Report by the Board.

Management discussion and analysis report

INDIAN ECONOMIC OVERVIEW

The Indian economy slowed to a three year low in FY18 from a healthy clip of over 7% recorded in the previous years as the short term impact of several key policy changes took a toll on economic activity in the early part of the fiscal. The growth rate which had dropped to below 7% in the last quarter of FY17 continued its decline, touching a low of 5.7% in Q1. Though it has since reverted to "business as usual", with GDP growth once again above 7% in Q3, the slowdown has expectedly had an impact on the overall growth rate for the year which is now estimated at around 6.6% (Source: Central Statistics Office)

Despite this, India's average growth over a period from 2014-15 to 2017-18 is 7.3%, which is the highest among the major growing economies of the world. Notwithstanding the decelerating impact of recent fiscal initiatives, the overall stability in India's growth is accompanied by relatively lower inflation, improved current account balance and a commitment to reduction in the ratio of fiscal deficit to the GDP.

2017-18 witnessed significant governmental reforms. Introduction of the Goods & Services Tax ("GST") was one of the largest tax system overhauls ever undertaken and is expected to aid growth in production and distribution of goods through simplification and transparency in tax compliance across the country. While demonetisation had its impact across industries for a while, it is expected to prove beneficial in the long-term as digital transactions receive a boost, in turn increasing transparency and tax compliance. Additional steps such as the resolution of banks' non-performing assets (NPAs) through the new bankruptcy regulations, the liberalisation of Foreign Direct Investment ("FDI") and the bank recapitalization scheme are far reaching initiatives that should attract investment and spur growth in the long run. Export growth, which had been muted for a few years witnessed a rebound in 2016-17 and strengthened in 2017-18. The country's forex reserves rose to US\$424 billion as on March 2018.

India's performance has contributed to consolidating South Asia's position as the fastest-growing region in the world. Independently, India's economy is the seventh-largest in the world and is growing faster than every other large economy with the exception of China, with which it has been trading places. India is home to 18% of the world's population,

approximately 1.34 billion people. It is expected to become the most populous nation by 2024. Growth projections indicate that the economy, on purchasing power parity (PPP) terms, is expected to be the second-largest in the world, after China by the year 2050. The World Economic Forum's Global Competitiveness Report 2017 ranked the country at the 23rd position, moving up by an impressive 16 places from the 39th position in 2016. (Source: CSO, economic survey 2017-18)

OUTLOOK

With the short term negative impact of policy initiatives like demonetization and GST appearing to ebb, India's GDP growth rate is expected to rebound in FY19 to its long run average of over 7%. Economic Survey estimates have recently placed this number at 7.0 – 7.5% while various other organizations have also corroborated the potential of a bounce back in growth rates ahead. The International Monetary Fund's ("IMF") World Economic Outlook expects India to grow at 7.4% and 7.8% in 2018 and 2019 respectively while Moody's Investor Services' estimates are at 7.6% and 7.5% for the same years respectively.

The infrastructure sector and the rural economy is certainly expected to drive a large part of this growth as spending under the various rural and agri-based development initiatives of the government accelerates in the next 12 months. With the expectation of a third "normal" monsoon in a row, the stage is set for a pick-up in economic activity and the consequential impact on production and capacity utilization across sectors in the Indian economy next year.

INDIAN CEMENT INDUSTRY

India is the world's second largest producer of cement producing an estimated 285 million metric tonnes in 2017 (Source: DIPP) with the overall production capacity of the country estimated to be just above 425 million metric tonnes. Cement is a critical industry which provides direct and indirect employment to over a million people and forms part of the eight core sectors contributing to the economy. India's per capita consumption of cement stands at 225kg per year well below the global average indicating a significant opportunity for growth for the sector. Sectors which are major consumers of cement are Housing, Infrastructure and Commercial and Industrial Construction. In terms of market players, after the recent wave of consolidation in the sector, the 5 largest cement companies account for almost 50 per

cent of the total cement production in India. Just over 200 large plants account for more than 80% of the capacity in the country with a large number of smaller plants constituting the rest. The main cement manufacturing regions in the country are located in Andhra Pradesh, Telangana, Gujarat, Karnataka, Tamil Nadu, Madhya Pradesh, Chhattisgarh and Rajasthan.

The sector witnessed several challenges throughout the year under review, such as a continued slowdown of demand from the housing sector, a ban on sand mining in several states, introduction of policies like RERA and GST with their associated short term teething issues on the real-estate sector as well as a temporary ban on the use of pet coke as a fuel in Q3 which affected several players in the cement industry. On the positive side, major industry consolidation of capacity is almost complete and there has been an increase in demand for cement arising from the focus on execution of large infrastructure and other government projects in the second half of the year.

The continued slowdown in the urban real estate as well as sand availability issues impacted overall demand from the housing sector. The first half witnessed a de-growth in demand of approx. 1.5%. However, a renewed focus on execution of infrastructure projects particularly in the second half of the year has helped to revive cement growth rates on the back of a low base post demonetization last year. Although cement demand has registered close to 20% growth since November 2017, this is likely to be a temporary spike caused by the base effect of low production following demonetization and is likely to revert to a more sustainable level in FY19.

Geographically, the East continued to be the fastest growing region in cement demand through improvement in consumption by the IHB segment, low cost housing initiatives as well as infrastructure spending across the year. The North saw an impact from sand shortages and low availability of labour although a pick-up in infrastructure spending in some areas kept demand conditions favourable. In the West, while availability of sand and water did impact demand in the first half, a boost to infrastructure project spending in the second half saw significant pick-up in demand in the last few months. In the South, the markets were affected due to sand shortages, especially Tamil Nadu and Kerala, while localized drought in Tamil Nadu and a generally weak housing sector subdued demand further. Andhra Pradesh and Telangana stood out as high growth markets in this region.

Fuel prices have also been a big challenge being faced by the industry this year due to the twin effects of a surge in energy prices globally as well as the recalibration of fuel mix necessitated by policy changes and resulting uncertainty on use of pet coke as a fuel. Higher fuel prices, domestic fuel constraints due to availability issues and higher freight costs due to rising diesel prices have all contributed to an adverse impact on margins this year.

The year also saw several new limestone mines being auctioned in India with healthy competition among industry players to acquire these assets towards long term augmentation of production capacity. Auctions were conducted in the states of Rajasthan, Chattisgarh, Gujarat and Maharashtra.

The process of consolidation of large cement assets available for sale in the country, that had been ongoing for the last few years, has almost been completed. New owners have been identified for most of these large assets with some of these transactions being completed and ramping up operations during the year.

During the year, the government continued to announce several budget and policy initiatives, as part of its well flagged thrust on infrastructure, rural housing and rural income growth along with the continuation of existing programmes

Affordable Housing Fund: In its Union Budget 2018-19, the Government of India announced a ₹25,000 crore dedicated fund under the National Housing Bank which is aimed to assist the housing sector by providing credit to home buyers. This move is expected to drive cement demand in the near future.

Infrastructure status to Affordable Housing: The Government has granted infrastructure status to affordable housing projects, with the intent to provide benefits such as lower borrowing rates, tax concessions and higher private and foreign capital inflow.

Pradhan Mantri Awas Yojana ("PMAY") schemes: 37 lakh urban houses and 51 lakh rural houses are expected to be completed by FY19 under the "Housing for all by 2022" scheme with budgetary and extra-budgetary sources of funding provided to the tune of ₹64,000 crore under the scheme.

Bharat Mala project: The Union Government also cleared the Bharat Mala project during the year, an ambitious highway construction project that subsumes the existing projects under the National Highway Development Programme ("NHDP"). It includes economic corridors of around 9,000 km, inter-corridor and feeder routes of around 6,000 km, 5,000 km roads under the National Corridors Efficiency Program, border and international connectivity roads of around 2,000 km, coastal and port connectivity roads of around 2,000 km, expressways of around 800 km and 10,000 km of NHDP roads.

Pradhan Mantri Gram Sadak Yojana ("PMGSY") scheme: The PMGSY scheme has been forwarded to FY19 and the Union Budget allocated ₹19,000 crore for the development of roads in rural and backwards areas under this scheme.

Smart Cities Mission: An outlay of over ₹6,000 crore was announced in the Union Budget 2018-19 towards the Smart Cities project in continuation of the 5 year mission towards

renewal and development of urban areas within the country.

Swachh Bharat Abhiyan: Intention to construct 2 crore more toilets across the country in the fiscal year 2018-19 to add to the 6 crore toilets already constructed towards attaining the objective of universal sanitation coverage in the nation with an allocation of around ₹2,500 crore for FY19.

Other schemes: Several other transport and infrastructure projects such as irrigation, waterways, metros, etc are also expected to provide a boost to demand for cement in the years ahead.

Boost to Investments and Rural Income: The government is making several efforts to encourage foreign direct investment through the FDI route as well as boost rural incomes and spending through programmes like an increase in Minimum Support Prices ("MSP") to spur rural incomes, consumer demand and private capital expenditure.

INDUSTRY OUTLOOK

With the near completion of all major consolidation opportunities in the industry, FY19 is likely to be year where industry players focus on ramping up utilization of their existing and increased capacities. This will be likely aided by a strong demand from the infrastructure and affordable housing sectors, as various government projects are pressed into execution mode. Government projects outlined above in the areas of road and highway construction, affordable housing, smart cities, metro development, sanitation systems, irrigation and waterway construction, etc. are all expected to boost demand considerably in the years ahead.

Notwithstanding the fiscal expenditure on infrastructure, the home construction segment will continue to be a large proportion of cement demand in the country, and if urban real estate shows some green shoots of revival, the overall impact on cement growth could be considerable. Geographically, growth is likely to be skewed towards the newer and relatively virgin markets of eastern India.

In the long term, demand growth is projected by some to reach 550-600 million tonnes per annum by the year 2025 with a large part of this growth being driven by the infrastructure sector as successive Indian governments focus on providing housing, basic infrastructure, modern cities and other amenities to its burgeoning population in addition to consumption by sectors such as housing, industrial and commercial construction. Most analysts and research estimates put the annual cement demand growth between 7 – 8% annually in the years ahead.

Fuel prices, even at current levels, will continue to put pressure on industry margins. Continued global economic recovery may potentially be accompanied by a further rise in global energy prices next year, which in turn, could create considerable upward pressure on input costs for all cement producers.

ORIENT CEMENT'S FINANCIAL PERFORMANCE

Your Company's net revenue grew by 19% to ₹2,24,256.96 lacs in 2017-18, while EBITDA stood at ₹32,540.70 lacs as compared to ₹19,039.04 lacs in FY17. Interest costs were stable at ₹12,920.96 lacs. Orient Cement reported a profit after tax of ₹4,422.14 lacs as compared to a post-tax loss of ₹3,209.85 lacs in FY17.

Your Company experienced a tale of two halves this year, with lower volumes in the first half followed by a pick-up in demand in the second part of the financial year, eventually growing cement volumes by around 3.5% for the full year. Earlier in the year, shortages of sand, water and labour, GST and RERA related disruptions, slowdown in construction particularly in the West and a weak housing market in the South all caused demand to weaken in our core areas. Demand then recovered in the second half of the year after an extended monsoon, the revival being quickest in the southern markets of AP, Telangana and Karnataka, while Maharashtra witnessed an increase only in the last few months of the year under review. Most of the growth in demand came from various infrastructure projects in these states boosting institutional sales that were driven by an intense focus on execution of government projects during this period.

Besides the improved demand situation in the market, your Company also took several initiatives to maximise its gains. With the increased demand emerging from large infrastructure projects through large EPC companies, Key Account Management capabilities have been sharpened to consolidate our relationships with key institutional customers and provide a differentiated service. The Company also conducted various branding and technical activities during the year to further promote the Birla A-1 brand and used innovation and technology to improve its reach, its service levels and its overall connect with the customers and channel partners.

Pursuant to our signing of definitive agreements for the acquisition of certain assets from Jaiprakash Associates Limited ("JAL") and Jaiprakash Power Ventures Limited ("JPVL") in May 2017, we are awaiting the satisfactory completion of the necessary pre-conditions required for the closing of the transaction.

SALES

In a challenging environment, market share retention and consolidation in core areas have been the principal areas of focus for us in FY18. In addition, we established newer core markets, cementing our brand and deepening our channel network in the new areas, enabled by the supply from our relatively newer Chittapur plant. Thus, despite difficult conditions through most of the year, Orient Cement achieved a 3.5% growth for the year in sales volume.

In this year, we also institutionalized Key Account Management ("KAM") within our Sales function to drive

our engagement and relationships with our select largest customers. Our empowered and dynamic KAM team is dedicated to servicing our key institutional customers ensuring our consistent engagement, close relationship and prioritised service levels. This is just one pillar of our ongoing focus on customer centricity and it is a matter of pride that sales from this important function have doubled over last year and are expected to continue to grow in the coming years.

Despite infrastructure demand driving the volume push in the second half, the Company was able to maintain its strong product mix supporting its efforts to stay responsible, sustainable and profitable. Along with its product mix, your Company also maintained strong volumes to trade customers through improved marketing and branding initiatives in FY18 and is even better poised to benefit from a potential spurt in home construction demand in its areas of operation. Better logistics management, post-GST, has improved our direct dispatch capability and we continue to explore other options to reach customers faster, cheaper and better than our competitors.

We continue to hire a good mix of experienced and fresh employees for the sales team, train them in best practices and provide them with the best tools and technology on offer to enable them to reach customers quickly and effectively. This has created dynamic ambassadors for our brand in every area of operation and the efficiency of the sales team has seen considerable improvement. Teams have real time data access and connectivity at their fingertips through digital tablets and are able to offer better service levels and improved engagement with all our customers besides sharing real time feedback on markets for quick and effective decision making. The sales team is ably assisted by our well-qualified technical experts who conducted a large number of activities to familiarize our customers and influencers with our product, its attributes and applications.

LOGISTICS

In an industry where the logistics form perhaps the single largest cost, efforts to optimise this cost, while ensuring the required level of customer-service, is always on our top agenda. Your Company has had a significant re-look at its entire logistics and freight strategy since the roll-out of GST to identify opportunities for optimization of its freight mix and its depot network under the new tax regime. More specifically, your Company has also focused its attention on driving an even higher proportion of direct dispatches than before and has already achieved considerable success in this area.

Reduction of turnaround time (TAT) has also been a key focus area for Orient Cement, and we have extensively worked with transporters to implement GPS across their fleet, which allows easy tracking and efficient fleet management.

Reducing TAT are also being explored through utilizing technologies like RFID tags to efficiently manage various touch points within the plant.

BRANDING AND CUSTOMER ENGAGEMENT

The Company worked extensively during the year to build on the initiatives from the previous year, increase customer outreach and enhance brand recall. The successful campaign 'Pressure deta nahi, leta hain' was continued in the year under review and extended across more locations through TV commercials, theatre, radio, outdoors, Point of Sale ("POS") activities and in-shop branding.

As a first ever initiative, Orient Cement associated with the popular movie "Baahubali 2" showcasing the attributes of strength inherent in Birla A1 cement. This involved commissioning and extensive airing of a dedicated TV commercial, using hoardings and posters to publicize the association and providing access to early movie screenings to our channel partners. This association was very successful in enhancing brand recall, with the brand earning the 'Baahubali cement' moniker in many markets.

Additionally, the Company focused on several small localized events that provided considerable brand mileage at low investment compared to large-format events. In the markets of Andhra Pradesh, Telangana and Karnataka, the Company sponsored several rural 'jatras' that enhanced brand visibility, with one such event registered footfalls of more than a million people. Your Company partnered with various body building, weight lifting and wrestling competitions across its local markets to associate the brand with strength as well as sponsored a local bodybuilder from the Mancherial district at the Asian and World Bodybuilding Championships resulting in tremendous goodwill and publicity.

On the digital front, the Company launched a new brand website this year not only as a promotional tool but also as a repository of information related to construction and home building. The site is continuously updated with various articles and audio/visual elements and is available in several local languages. Orient Cement also experimented with new formats, creating viral videos with popular messages on social media and initiatives like selfie contests to promote the brand further.

OPERATIONS

The Company's operations continue to be the best in class in terms of various efficiency parameters and efforts are continuously on to further improve the overall cost of production of cement so that your Company continues to enjoy one of its key competitive advantages relative to other industry players. It is precisely this focus on operational and execution excellence that has enabled us to ramp up production and distribution of cement from the relatively new Chittapur plant efficiently and in short time. This is in

spite of the headwinds of relatively poor demand growth from the surrounding markets in Karnataka and Maharashtra this year.

From the use of digital technologies to reduce supply-chain costs to the optimization of our distribution network, from the incessant watch over our energy utilization to the deep-rooted culture of eliminating waste in any form, your Company has always and will continue to use every means at its disposal to stay one of the most efficient producers of cement in the country.

We will continue to focus our efforts on several more cost optimization initiatives in the future, including alternate fuel utilization and waste heat recovery systems, that we are confident will further reduce costs of operations. This is particularly significant at a time when the industry faces headwinds from escalating fuel costs that are likely to cause considerable pressure on margins in the coming year.

PROCUREMENT

Orient Cement responded to costlier imports, quality issues and supply disruptions by using strategic long term agreements to establish fuel security while retaining flexibility to modify its fuel mix as required. The Company also gained security in terms of other raw materials like fly ash by locking in supply from new sources on an annual basis. The Company used SAP ARIBA procurement software to drive transparency and efficiency in the procurement process while contract rationalizations have also been undertaken wherever possible to achieve cost savings. Numerous other steps, such as locating alternate sources of traditional fuel as well as usage of alternate fuel, were taken across the organization to utilize resources efficiently and optimize the cost of procurement as much as possible.

SUSTAINABILITY

Sustainability is at the heart of the Orient Cement philosophy and the Company is committed to supporting the environment and the neighbourhoods in which the plants operate. Along with environmental sustainability, the Company strives to create a safe work environment for all its employees in line with the motto 'Work Safe, Live Safe'. The plant operations are aligned to this commitment with regular safety trainings and ensuring that the workforce uses adequate protective equipment appropriate for the areas they work in.

The Company joined the Cement Sustainability Initiative ("CSI") under the aegis of the World Business Council for Sustainable Development ("WBCSD") last year. This is a voluntary initiative, taking on additional responsibilities to adhere to stringent environmental, safety and sustainability goals over and above our statutory obligations that we comply with.

Health & Safety: The Company undertook various new

initiatives concerning health and safety during the year under review. A 'monthly safety theme' was introduced at all plant locations. This regular theme selection highlights and focuses on various aspects of safety such as fire safety, electrical safety, road safety and plant safety to build awareness amongst employees. The Company also focused on behavioral safety during the year under review and conducted training for its employees across all the plants. The intent was to address employee and worker behavior around plant and machinery and train them in methods to ensure adequate care and protection. A health and safety mobile app was launched for employees, containing the cardinal rules of safety, and the app is regularly updated with safety briefings as well as updates on rewards and recognition awarded for safe practices across plant locations. This was further support by the development and circulation of a corporate safety manual. The Company also introduced the concept of internal safety audits during the year, wherein a team from one plant is trained in best practices and then sent to audit the same at another plant, highlighting good practices and areas of improvement. The knowledge is then shared across all plant locations improving overall safety.

Environment: We continue to focus on improving resource efficiency in clinker and cement production by optimising energy usage, utilising waste in production processes and targeting higher alternative fuel and raw material usage. In the process, we also endeavour to minimise our impact on climate, water and air. The Company has constructed 15 check dams at various locations in and around the plant at Devapur and has developed a reservoir – "Maisamma Sagar" for collecting rain water in the lower most benches during the monsoon season. A huge pond is being maintained for the collection of rain water at the Chittapur plant. Rainwater harvesting capacity was augmented through an additional structure at Jalgaon. Additionally a waste water recycling plant was also installed there. All three plants have dedicated green zones, where plantations arrest dust and provide natural shade. As part of the CSI, the Company has further aligned operations with an effort to reduce emissions and protecting the environment where it operates. The Company has also trained select employees to collect data as per Global Reporting Initiative ("GRI") standards which is later analysed to ensure consistent alignment with the CSI goals.

HUMAN RESOURCES AND INDUSTRIAL RELATIONS

Our talent-pool of knowledgeable, motivated and engaged professionals is the key to the success of your Company, its operations and its growth. Development of these resources is an important strategic lever to enable further growth and transformation of your Company. As such, the Company invests significant time and effort in developing talent and creating opportunities for its people.

In line with this endeavour, the Company enabled mobility

of talent during the year under review to create internal job positions within the organisation for employees seeking career development while also enabling cross pollination across functions and locations. This simple measure significantly reduced our recruitment cost by substituting those with internal referrals and transfers. The Company also introduced a new 'Buddy' programme for new recruits, where new employees are supported by an experienced 'buddy' whom they can approach for help and assistance in their settling down efforts.

The very successful CEO Circle programme to identify and create potential leaders for the future was continued into this year as well, with the selected employees undergoing intensive training and leadership development programmes during the year under review, thus enabling your Company to build a deep talent pool. Our "Medhas" programme for effective transfer of knowledge between locations is running successfully into its second year, with knowledge sharing happening across departments, functions and locations.

The Company also launched a new programme called "LEAD", for first-time managers to train them on team leading skills. The program was an immense success with a further plan in place to roll-out similar programmes for all managers next year. Your Company continued to conduct customized sales trainings during the year under review to enhance salesforce productivity and training templates were made available on Sales Force Automation tabs for easy access by every frontline employee.

On the employee engagement front, the Company launched "Workplace by Facebook" for its employees to connect, collaborate and share. This forum has gained very quick traction amongst employees across locations and has dramatically enabled engagement, improved communication and information sharing across locations and reporting lines.

A new reward and recognition programme named "Applause" was launched in both offline and online mediums to enable formal and informal recognition of employee achievements by their peers and managers. During the year under review, the Orient Cement Anthem was created based on themes suggested and sung by the employees and launched across locations to foster a spirit of enthusiasm and unity among employees. Our anthem showcases our talents in areas beyond functional expertise.

The performance management system at Orient Cement is now completely online and is being used extensively across the entire organisation. The Company has continued to induct talent from top institutes to create a young and dynamic talent pool to drive its various business initiatives. Diversity ratios have improved during the year under review and it is our clear intention to improve these further in the years ahead. The average employee age was 37 years.

The total number of direct and indirect employees stood at over 4500 at the end of 2017-18, with attrition at about 5%. Industrial relations remained cordial throughout the year under review.

CORPORATE SOCIAL RESPONSIBILITY

Corporate Social Responsibility is not just a way of engagement but a symbiotic relationship we create and share with the communities and people we engage with, thus contributing to their overall social and economic development. The Company has aligned its CSR activities with its business imperatives and focuses on education, healthcare, infrastructure development and skill development around all three plants. All long terms plans have been fleshed into medium and short term plans and every activity recommended by the CSR Committee is diligently executed and monitored for assessment of outcome and impact.

At Devapur, the Company operates a school providing excellent quality education in both English and Telugu medium. Besides the children of our employees, children from the local communities are encouraged and welcomed to attend our school regularly and learn, at no cost. To improve the quality of teaching, your Company organized a structured teacher development program for the entire teaching staff at Devapur that covered modern teaching methods to be applied by all teachers there. Along similar lines, a teacher development programme was sponsored for 50 teachers from government schools around the Chittapur plant. The company also awarded scholarships to 18 talented students struggling to continue their education on account of financial hardship.

Your Company contributes to social good by providing primary healthcare support in the vicinity of its plants. The Company has three full time doctors (including a lady doctor) in the dispensaries at Devapur and Chittapur to treat people locally and supply free medicines.

The Company is also actively engaged in developing rural infrastructure around its Chittapur plant and has spearheaded efforts to build roads, develop drainage systems, plant trees and conduct cleaning activities. The partnership with an NGO has allowed further expansion of the skill development initiative where women and girls from rural communities are imparted with skills such as basket weaving, knitting and tailoring.

Toilets have been constructed for the benefit of local communities in the villages.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

In order to ensure orderly and efficient conduct of business, the Company has put in place necessary internal control systems, considering its business requirements, scale of operations and applicable statutes. The systems include

policies and procedures, IT systems, delegation of authority, segregation of duties as well as an internal audit and review framework.

The Company has designed necessary internal financial controls and systems with regard to adherence to its policies, safeguarding of its assets, prevention and detection of frauds and errors, accuracy and completeness of accounting records, and timely preparation of reliable financial information. The compliance with these controls and systems is periodically reviewed by the Internal Audit function and exceptions are reported to the Audit Committee and followed up for corrective action. The Company has engaged the services of a professional Chartered Accountancy firm to carry out its internal audit. It also has an in-house Internal Audit department manned by qualified professionals to conduct, coordinate and monitor audit activities, and also follow up on compliance and actions taken. All material audit observations and follow-up actions thereon are reported to the Audit Committee for its review on a regular basis.

The Company has elaborate systems for Budgetary Control and a timely Management Information System (MIS). The Company maintains a system of internal controls designed to provide a high degree of assurance regarding the effectiveness and efficiency of operations, the reliability of financial controls and compliance with laws and regulations. A combination of these systems has made the Company's internal control system robust.

The Company has a well-established Risk Management Policy. The Governance Risk and Compliance Committee (GRCC) of the Company monitors and carries out periodic reviews of the robustness of its Risk Management framework. The Committee presents a mitigation plan for the risks faced by the Company to the Audit Committee and the Board of Directors. The Internal Audit function is responsible for the review and independent assurance of the overall effectiveness and efficiency of the Risk Management processes. Our risk based audit approach has focused on the Company's objectives and impediments to achieving those objectives, with an emphasis on added value.

The Company ensures alignment of the internal controls systems and processes to existing and new regulatory compliances. It has enhanced stakeholder awareness through trainings and workshops. The Company intends to enhance the use of technology and integrate analytics into its audit methodology to prevent under-delivery, broaden audit coverage, provide trends, exceptions/non-routines and enhance focus on issues that matter.

RISKS AND CONCERNS

Risks are an unavoidable aspect of doing business. In fact, fructification of certain risks also sometimes presents tactical opportunities. However, with a view to managing its

risks appropriately in the long term, the Company actively identifies, analyses and addresses key risks through a robust risk management programme. The Company's policy on risk management details objectives, principles, processes, procedures and related responsibilities.

The following stages are involved in the Company's risk management:

- Establish the context against which objectives of the Company are identified and prioritized.
- Assess (identify and prioritize) risks through risk identification and risk prioritization
- Mitigate risks through the design and implementation of activities that help manage risks to an acceptable level.
- Follow a formal process to update the Board of Directors, Audit Committee and Governance Risk & Compliance Committee on the implementation of mitigation plans.

RISK PROFILES AND MITIGATION

Economic factors: A change in macroeconomic conditions, such as slowdown in GDP due to structural or one-off factors like de-monetisation, interest rate trends, inflation, drought affecting rural incomes etc. can have an adverse impact on the Company's performance. To manage these risks, the Company is continuously tracking economic parameters to proactively identify adverse events early and formulate strategies to minimise their impact on its business.

Credit exposure: : Delays in payments from customers may lead to shortfall in cash flow, and also add to cost through increased working capital requirements. To mitigate this risk, the Company has balanced its business between institutional and retail customers and also seeks to implement innovative ways to proactively improve collections. This has reduced concentration of debtors and the risk of a longer working capital cycle.

Cost concerns: Increase in the costs of raw material, power and fuel due to inflation or global price trends may impact profitability. The Company is employing various means to reduce the impact of rising costs through better fuel sourcing, dynamic fuel mix capabilities to capitalise on changing trends in price and the use of alternative fuels. A focus on achieving better operating efficiencies and reducing coal and power consumption continues as a way of life. The Company continues to evaluate and assess long term strategic solutions from waste heat recovery systems to solar energy, from alternate fuel to alternate sources, etc. to manage costs in the medium and long term.

Compliance: The growth in business size, coupled with increasing regulatory enactments, has increased compliance requirements. Non-compliance with statutory provisions could not only lead to monetary penalties but also impact the reputation of the organisation and the goodwill it has accumulated over the years. This risk is mitigated through

regular monitoring and review of changes in the regulatory framework, and also through monitoring of compliances through Compliance Management Software and other mechanisms.

Competition risk: The country's cement industry is witnessing increasing competition on account of the geographic concentration of cement plants, supply overhang and low levels of capacity utilization. Increased competition can create pressure on margins, market share etc. To mitigate this risk, the Company is leveraging its expertise and experience, investing continuously in enhancing the equity of its Birla A1 brand by focusing on quality, cost, timely delivery, customer service, advertising and brand promotion as well as deeper institutional customer relationships. The Company is investing in marketing and promotions to sustain brand equity in its areas of operation, strengthen brand salience in new markets and enhance its competitiveness. The company has used many innovative solutions to creating and sustaining brand recall for its product in its areas of operations such as partnership with popular movies, viral videos, local events, etc.

Industrial safety, employee health and safety risk: The Indian cement industry is labour intensive; it is exposed to health and injury risks due to accidents or negligence. To reinforce the safety culture in the organisation and mitigate this risk, the Company has taken numerous initiatives. The Company has a robust approach to enhance safety and health awareness at all its locations. The various measures include the development and implementation of critical safety standards across units and project sites, establishment of processes for safety training across levels, promotion of a safety culture for staff members, and contract workers

with appropriate insurance coverage. Internal safety audits have been initiated this year while behavioural training has been imparted to employees across all locations this year to inculcate a culture of safety among all.

Human resources risk: The Company's ability to enhance value is dependent on its ability to attract, retain and nurture talent. Attrition and non-availability of the required talent/resources can affect performance. The Company is continuously benchmarking its people practices with the best HR practices across the industry, carrying out improvements to attract and retain talent. Various initiatives have been launched to foster a higher level of engagement and belongingness amongst employees. The Company is reviewing, implementing and monitoring personal development plans for high performers and high potential employees. The Company controlled attrition to about 5% in the year under review. .

CAUTIONARY STATEMENT

Corporate Governance Report

COMPANY'S GOVERNANCE PHILOSOPHY

The Board and Management Team of Orient Cement attaches utmost importance to the principles of corporate governance and ensures that the highest standards of corporate governance are established and maintained in the Company on an ongoing basis to safeguard the long term interests of all stake holders.

The Company is committed to adhering to corporate governance practices that are best in class in order to ensure healthy business fundamentals and deliver optimum performance under all circumstances.

The robust corporate governance framework that has been put in place enables Orient Cement to be managed effectively and ensures the integrity, transparency and fairness of all processes and practices aimed at creating and enhancing value for all stakeholders in a balanced and fair manner.

All corporate governance initiatives undertaken by the Company adhere to the sound principles of integrity, transparency, professionalism, trusteeship, accountability and corporate responsibility through relentless focus on these core principles:

- (a) **Transparency:** By classifying and explaining the Company's policies and actions to all those that are concerned, including its employees, the Company aims at maximum possible level of disclosures without hampering the interests of the Company and its shareholders. The Company believes in promotion of ethical values and behaviour and setting exemplary standards in our conduct towards our business partners, colleagues, shareholders and the general public;
- (b) **Accountability:** The Company ensures that there is absolutely no compromise in the areas of accountability and responsibility even as it pursues growth;
- (c) **Professionalism:** The Company ensures that management teams across all levels are appropriately qualified professionals who have a clear understanding of their roles and are capable of exercising sound judgment, keeping in view the Company's interests, without being subject to undue influence from any external or internal pressure;
- (d) **Trusteeship:** The Board considers itself a Trustee of the Company's shareholders and acknowledges its responsibilities towards them for creating and safeguarding their wealth. The Company constantly

emphasizes the fiduciary role of the management to align and direct all actions of the organisation towards creating lasting shareholder value;

- (e) **Corporate Responsibility:** The Company includes sustainable development - environmental and social - as a key strategic objective which is enshrined in its core vision - to be an 'employer of choice' and a 'neighbor of choice' wherever it operates;
- (f) **Integrity:** Besides enforcing a demanding code of conduct for the employees, vendors and Board, the Company ensures the independent verification and truthful presentation of the Company's financial position and performance. For this purpose, the Company has constituted an Audit Committee which pays particular attention to the financial management and reporting process. A robust whistle-blower mechanism is also in force under the direct supervision of the Board.

This Report has been prepared in accordance with the requirements laid down under the Companies Act, 2013 ("Act"), SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI LODR Regulations") and with a view to meticulously attain the highest standards of governance.

BOARD OF DIRECTORS

Composition

The Board of Directors ("the Board") plays a fundamental role in upholding and nurturing the principles of good governance which translates into ethical business practices, transparency and accountability in the Company's dealing with its members and other stakeholders and the utilization of resources for creating sustainable growth and societal wealth. CODE OF CONDUCT

The Company has also adopted a Code of Conduct ("Code") for the Members of the Board of Directors and Senior Management, and all the directors and Senior Functionaries as defined in the said Code. The Code provides their annual confirmation of compliance with the Code. The Code is available on Company's website and can be accessed through the web link: <http://orientcement.com/investors/>. The role and responsibilities of Independent Directors as prescribed in Schedule IV of the Companies Act, 2013 and/ or prescribed in SEBI LODR Regulations forms part of the appointment letters issued to the Independent Directors.

POLICIES & CODE AS PER SEBI INSIDER TRADING REGULATIONS

In accordance with SEBI (Prohibition of Insider Trading) Regulations, 2015, the Company has formulated and approved (i) an Insider Trading Code to regulate dealing in the securities of the Company by Designated Persons in compliance with the regulations; and (ii) a Policy for Fair Disclosure of Unpublished Price Sensitive Information.

The Insider Trading Policy of the Company covering code of practice and procedures for fair disclosure of unpublished price sensitive information is available on Company's website <http://www.orientcement.com/wp-content/uploads/2016/05/Code-of-Practices-and-Procedures-for-Fair-Disclosure-of-UPSI.pdf>.

BOARD FAMILIARIZATION PROGRAM

A formal letter of appointment is given to Independent Directors at the time of their appointment detailing the terms and conditions of their appointment, expectations,

roles, functions, duties and responsibilities. At the Board and Committee meetings, the Independent Directors are familiarised with the Company's business performance, operations, projects, market share, financial parameters, working capital management, fund flows, change in senior management, major litigation(s), compliance(s) etc. They are also appraised about risk assessment and mitigation processes.

With a view to familiarize the Independent Directors with the Company's operations, the Managing Director & CEO has a personal discussion with the newly appointed director. The above initiatives help the director to understand the Company, its business and the regulatory framework in which the Company operates and equips him / her to effectively fulfil his / her role as a director of the Company.

The details of programs for familiarization of the Independent Directors are available on the Company's website and can be accessed through the web link: <http://orientcement.com/investors/>.

CEO/CFO CERTIFICATION

The Managing Director & CEO and Chief Financial Officer certification as stipulated in the Regulation 17(8) of SEBI LODR Regulations was placed before the Board along with financial statement(s) for the year ended 31st March, 2018. The Board reviewed and took the same on record. The said certificate forms part of the Annual Report.

New Delhi - 110001

1. The Corporate Governance Report prepared by Orient Cement Limited (hereinafter the "Company"), contains details as required by the provisions of Chapter IV of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended ("the Listing Regulations") ('Applicable criteria') with respect to Corporate Governance for the year ended March 31, 2018. This report is required by the Company for annual submission to the Stock Exchange and to be sent to the Shareholders of the Company.

Management's Responsibility

2. The preparation of the Corporate Governance Report is the responsibility of the management of the Company including the preparation and maintenance of all relevant supporting records and documents. This responsibility also includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the Corporate Governance Report.

3. The management along with the Board of Directors of the Company are also responsible for ensuring that the Company complies with the conditions of Corporate Governance as stipulated in the Listing Regulations, issued by the Securities and Exchange Board of India.

Auditor's Responsibility

4. Pursuant to the requirements of the Listing Regulations, our responsibility is to express a reasonable assurance in the form of an opinion whether the Company has complied with the specific requirements of the Listing Regulations referred to in paragraph 3 above.

5. We conducted our examination of the Corporate Governance Report in accordance with the Guidance Note on Reports or Certificates for Special Purposes (Revised) and the Guidance Note on Certification of Corporate Governance, both issued by the Institute of Chartered Accountants of India ("ICAI"). The Guidance Note on Reports or Certificates for Special Purposes requires that we comply with the ethical requirements of the Code of Ethics issued by the Institute of Chartered Accountants of India.

6. We have complied with the relevant applicable requirements of the Standard on Quality Control (SQC) 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements.

7. The procedures selected depend on the auditor's judgement, including the assessment of the risks associated in compliance of the Corporate Governance Report with the applicable criteria. Summary of key procedures performed include:

- i. Reading and understanding of the information prepared by the Company and included in its Corporate Governance Report;
- ii. Obtained and verified that the composition of the Board of Directors w.r.t executive and non-executive directors has been met throughout the reporting period;
- iii. Obtained and read the Directors Register as on 31st March 2018 and verified that atleast one women director was on the Board during the year;
- iv. Obtained and read the minutes of the following committee meetings held 1st April 2017 to 31st March 2018:
 - (a) Board of Directors meeting;
 - (b) Audit committee;
 - (c) Annual General meeting;
 - (d) Nomination and remuneration committee;
 - (e) Stakeholders Relationship Committee; and
 - (f) Independent directors meeting;
- v. Obtained necessary representations and declarations from directors of the Company including the independent directors ; and
- vi. Performed necessary inquiries with the management and also obtained necessary specific representations from management.

The above-mentioned procedures include examining evidence supporting the particulars in the Corporate Governance Report on a test basis. Further, our scope of work under this report did not involve us performing audit tests for the purposes of expressing an opinion on the fairness or accuracy of any of the financial information or the financial statements of the Company taken as a whole.

8. Based on the procedures performed by us as referred in paragraph 7 above, and according to the information and explanations given to us, that we are of the opinion

that the Company has complied with the conditions of Corporate Governance as stipulated in the Listing Regulations, as applicable for the year ended March 31, 2018, referred to in paragraph 1 above.

Other matters and Restriction on Use

9. This report is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.
10. This report is addressed to and provided to the members of the Company solely for the purpose of enabling it to

comply with its obligations under the Listing Regulations with reference to compliance with the relevant regulations of Corporate Governance and should not be used by any other person or for any other purpose. Accordingly, we do not accept or assume any liability or any duty of care or for any other purpose or to any other party to whom it is shown or into whose hands it may come without our prior consent in writing. We have no responsibility to update this report for events and circumstances occurring after the date of this report.

SECTION E: PRINCIPLE-WISE PERFORMANCE

Principle 1- ETHICS, TRANSPARENCY AND ACCOUNTABILITY

1. Does the policy relating to ethics, bribery and corruption cover only the Company? Yes/No. Does it extend to the Group/ Joint Ventures/Suppliers/Contractors/ NGOs/ Others?

The Company does not have a separate policy relating to ethics, bribery and corruption. However, the policy is embedded in the Company's Codes of Conduct (Code of Conduct for Employees, Code of Conduct for Directors and Senior Management and Supplier Code of Conduct), Whistle Blower Policy, HR policies and various HR practices. The provisions of these Codes and the Whistle Blower Policy are a mandatory condition for the award of any contract as well as initiating or maintaining a business relationship with Orient Cement.

2. How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management? If so, provide details thereof, in about 50 words or so.

During the financial year 2017-18, the Company received total of 3 complaints related to ethics, bribery, and corruption. All complaints were successfully resolved during the year as on 31st March, 2018 through appropriate grievance redressal mechanisms.

1 complaint was pending from the previous financial year (reported in Feb-'17), which was investigated in 2017-18 and action taken in Apr-'18.

Apart from this, the Company received 2 complaints from the shareholders of the Company during the financial year 2017-18, which were resolved during the year. No complaint was pending from previous financial year.

Principle 2- SUSTAINABILITY IN LIFE-CYCLE OF PRODUCT AND SERVICES

1. List up to 3 of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities.

Two principal products are Ordinary Portland Cement and Portland Pozzolana Cement (PPC) and further under OPC, 43 and 53 grades is being manufactured in all the locations.

As a responsible corporate, the Company is committed to sustainable development and understands its obligations relating to social and environmental concerns. The Company continually seeks ways to conserve the environment and manage finite resources responsibly.

At Orient Cement, we integrate responsible sustainable practices into business operations that aim at environment sustainability and inclusive growth. We adopt a pro-active and responsible approach and consciously try to mitigate any impact of our operations on the environment. We also aim at

prudent and frugal use of non-renewable natural resources, reduction in air emissions as well as targeted investments in viable technologies that promise sustainable development. As a result of this responsible and pro-active approach, the Company is one of the most efficient manufacturers of cement in India in terms of power and fuel consumption.

The Company follows the following approach to achieve its goal of sustainability:-

- a) The Devapur and Jalgaon units are certified with integrated management systems (Quality- ISO 9001:2015, Environment- ISO 14001:2015 and Occupational Health and Safety- BS OHSAS 18001:2007) and Energy Management System ISO 50001:2011 and further implementation of ISO 9001, ISO 14001, and OHSAS 18001 at Chittapur is in progress. The new integrated cement manufacturing unit at Chittapur is equipped with new state of the art technology and latest energy-efficient equipment.
- b) Energy conservation practices such as installation/ replacement of energy- efficient equipment to reduce the Green House Gases (GHG) emissions and also to increase the resource efficiency.
- c) Use of Alternate Fuel Resource (AFR)/ – Rice Husk, carbon black as an Alternate Fuel and Pet coke in the manufacturing process to substitute the consumption of fossil fuel/ coal. We also have been granted permission from TSPCB, Hyderabad for co-processing of hazardous waste and non-hazardous waste in our cement kilns.
- d) Use of Fly ash (waste material from thermal power plants) to manufacture Pozzolana Portland Cement (PPC) as an environment friendly practice to conserve the environment.
- e) Rain Water Harvesting practice is adopted by conserving rain water in mined out pits for its use in the operations, for augmentation of the ground water level and to support the local biodiversity. Also we have constructed check dams at various locations in and around the plant to improve ground water level.
- f) Towards prevention of air emissions, adequate pollution control equipments were installed along with scheduled preventive maintenance. All raw materials which are coming inside are stored under covered shed.
- g) Adequate green belt development for pollution abatement, support to the local biodiversity and increasing the aesthetic and scenic beauty of the plants/ mines site.
- h) Installation, operation of sewage and water treatment plant for treatment of waste water and for purifying water.
- i) Installation of Continuous Emission Monitoring System for all the major stacks of Cement plant and CPP (Captive Power Plant). Continuous Ambient Air Quality Monitoring System for ambient air quality measurement has been

carried out for regular assessment of emissions.

- j) Closed conveyor belts and covered sheds has been provided for raw material handling and raw material storage to control fugitive emission.

In order to meet the new emission norms for CPP specified by MoEF vide S.O.3305 (E) dated 7th December 2015, limestone dozing system has been installed in CPP boilers by which an emission reduction of SO₂ by more than 50% has been achieved.

2. For each such product, provide the details in respect of resource use (energy, water, raw material etc.), reduction during sourcing/production/distribution achieved since the previous year throughout the value chain and reduction during usage by consumers (energy, water) achieved since the previous year?

The Company is constantly putting considerable efforts into the conservation of energy and water. We are closely monitoring and working on improving our resource, raw material, energy, water, waste and emission footprint as part of our "best in class" manufacturing practices. Our focus on operating efficiencies has led to the Company having one of the lowest specific energy and power consumption metrics in the industry.

3. Does the Company have procedures in place for sustainable sourcing (including transportation)? If yes, what percentage of your inputs was sourced sustainably?

The Company's integrated plants are situated close to limestone mines which help to minimize transportation cost. The Company deploys sustainable mining practices. The Company utilizes chemical gypsum (an industrial waste) for the manufacture of cement as well as flyash (a waste product from thermal power plants) in the production of Pozzolana Portland Cement (PPC). The Company utilises alternative fuel; rice husk, carbon black and Portland which helps to conserve the finite natural resources. The Company is increasing the usage of Alternate Fuel year on year to decrease dependency on traditional fuel i.e. coal.

4. Has the Company taken any steps to procure goods and services from local and small producers, including communities surrounding their place of work? If yes, what steps have been taken to improve their capacity and capability of local and small vendors?

The Company avails services like housekeeping, transportation, horticulture and like services from suitable sources of supply near our places of work. The Company fosters local and small suppliers for procurement of goods and services in close proximity to its plant locations. As part of the development of local and small suppliers' capacity and capability, a new program called Contractor Safety Management has been introduced in the Company. Training and technical support is being provided to them to improve

and build their capability and to educate and improve their performance standards.

5. Does the Company have a mechanism to recycle products and waste? If yes, what is the percentage of recycling of products and waste (separately as <5%, 5-10%, >10%).

The Company utilizes chemical gypsum (an industrial waste) for the manufacture of cement as well as flyash (a waste product from thermal power plants) in the production of Portland Pozzolana Cement (PPC). The Company also uses biomass – rice husk (waste material) as an alternate fuel and pet coke in the manufacturing process to substitute for the consumption of the fossil fuel/ coal.

In addition to the above OCL has installed several bag filters at various transfer points, Bag House for main stacks and Electro Static Precipitator (ESP) for cooler and CPP stack for trapping the dust passing through the chimney, this dust captured is collected in the hopper from which it is recirculated/ recycled back to the Raw meal process.

We are treating wastewater in Sewage treatment plant and treated water is used for dust suppression and horticulture purpose.

Principle 3 - EMPLOYEE WELL-BEING

1. Number of employees

4923 (direct and indirect) employees.

2. Number of employees hired on temporary/ contractual/ casual basis

3684 workers were hired on a temporary/contractual/casual basis.

3. Number of permanent women employees

There are 25 women employees in the management staff and 8 women employees as Wage Board/permanent workers.

4. Number of permanent employees with disabilities

4 permanent employees with disabilities are part of the organization.

5. Employee association that is recognized by management.

The employee association at Devapur is recognized by the management.

6. Percentage of permanent employees that are members of this recognized employee association

All the permanent workmen at Devapur are members of the recognized employee association (100% of permanent workmen in Devapur)

7. Please indicate the number of complaints relating to child labour, forced labour, involuntary labour, sexual harassment in the last financial year and pending, as on the end of the financial year.

No.	Category	No. of complaints at the beginning of the financial year	No. of complaints filed during the financial year	No. of complaints pending as on end of the financial year
a.	Child labour/ forced labour/ involuntary labour	Nil	Nil	Nil
b.	Sexual harassment	Nil	Nil	Nil
c.	Discriminatory employment	Nil	Nil	Nil

8. What percentage of your under-mentioned employees were given safety and skill up-gradation training in the last year?

a.	Permanent Employees	80%
b.	Permanent Women Employees	90%
c.	Casual/Temporary/Contractual Employees	100%
d.	Employees with disabilities	100%

Orient Cement undertakes significant efforts to enhance its workforce skills levels through various learning and development programs. Various trainings provided to the employees include functional as well as Health, Safety and Environment trainings. Basic safety induction and training is given to employees at the plants upon their induction into the Company. Further, at the manufacturing locations, specific safety trainings are provided to employees, including the temporary and contractual workforce, based on their job profiles.

Principle 4- STAKEHOLDER ENGAGEMENT

1. Has the Company mapped its internal and external stakeholders?

Yes, the Company has mapped its internal and external stakeholders. The major stakeholders identified and classified are:-

- Employees
- Customers
- Shareholders
- Local Communities
- Business partners/ Contractors/ Vendors
- Contract workers
- Project affected people
- Land contributors
- Government Bodies
- Industry Regulators
- Media and Industry Associations

For Orient Cement, maintaining relationship with stakeholders is a business imperative as our business revolves around our stakeholders.

2. Out of the above, has the Company identified the disadvantaged, vulnerable and marginalised stakeholders?

Yes, Orient Cement has identified the disadvantaged,

vulnerable and marginalised stakeholders in its area of operations. These include among others, project affected people, land contributors and local residents.

3. Are there any special initiatives taken by the Company to engage with the disadvantaged, vulnerable and marginalised stakeholders. If so, provide the details thereof, in about 50 words or so.

Orient Cement has paid due attention towards disadvantaged, vulnerable and marginalised stakeholders. Orient Cement puts a conscious effort to engage with such stakeholders, identify their needs/concerns and address them in a phased manner. Based on the needs identified, Orient Cement undertakes several programs to improve health service delivery, rural education, skill development, infrastructural development and economic livelihood. Several initiatives such as health care, education, infrastructure development, safe drinking water and sanitation, sustainable livelihood etc. are extended to disadvantaged, vulnerable and marginalised stakeholders and to the people living near the Company's manufacturing units. To achieve the same, we have a well-established CSR policy.

Principle 5- PROMOTION OF HUMAN RIGHTS

1. Does the policy of the Company on human rights cover only the Company or extend to the Group/Joint Ventures/ Suppliers/ Contractors/ NGOs/ Others?

The Company respects and promotes human rights of all relevant stakeholders and groups within and beyond the workplace, including those of the communities, consumers as well as the vulnerable and marginalised sections of the society. The Company is committed to ensuring that people are treated with dignity and respect. We have adopted Human Rights Policy to uphold human rights within our organisational boundaries and we continue to make our contractor, customers, suppliers, etc. aware of human rights-related issues.

2. How many stakeholder complaints have been received in

the past financial year and what percent was satisfactorily resolved by the management?

There were no complaints received regarding breach of human rights during the reporting period.

Principle 6- ENVIRONMENTAL PROTECTION

1. Does the policy related to Principle 6 cover only the Company or extend to the Group/Joint Ventures/Suppliers/Contractors/ NGOs/others.

As per Orient Cement's Supplier Code of Conduct, the vendors, agents, consultants, contractors and any other third party, who have a business relationship with Orient Cement, have to ensure the compliance with all governmental laws related to Environment and Health and Safety. Compliance with these laws is mandatory for Orient Cement's vendors, agents, consultants, contractors and any other third party.

2. Does the Company have strategies/initiatives to address global environmental issues such as climate change, global warming, etc.? Y/N. If yes, please give hyperlink for webpage etc.

Yes, At Orient Cement, we believe that Environmental and Social sustainability is imperative to the well-being of our planet and to human development and responsible corporates like us have to assume a responsible and pro-active role in contributing to the sustainability imperative. With increasing population and urbanization, demand for natural resources is increasing rapidly. Therefore, organizations involved in the cement industry have the responsibility to generate lasting innovations to protect both the industry's future viability and the health of our environment. It is necessary for those involved in the cement industry to manage emissions, eliminate waste and take responsibility for enhancing the quality of life on our planet. With this philosophy in our mind, we constantly identify and implement practices that satisfy the goals of sustainability in a holistic manner. Producing more and consuming less is the motto of our Company, which is evidenced by improvement in efficiencies across all aspects of our operations. This will not only benefit our environment but also improve the living standards of our society. It will help our nation's progress, ensuring the development in a rapid yet sustainable manner.

We strive to integrate responsible environmental practices into business operations that aim at environmental management, social development and financial profitability and have taken constant measures towards the same. We consciously aim to mitigate environmental impacts due to our business operations and follow precautionary approach wherever we suspect that our actions might cause harm to environment. We are aiming for responsible use of natural resources, reduction in air emissions, reduction in waste generation, targeted investments in viable technologies that promise sustainable growth that extend beyond mere

compliance with the law.

Orient Cement, as a responsible Corporate is in process for developing its first sustainability report under the international protocol of GRI standards.

3. Does the Company identify and assess potential environmental risks? Y/N

Yes, the Company has a mechanism to identify and assess potential environment risks in its plants. The Company is following ISO 14001:2015 standards to mitigate the potential environmental risks at Devapur and Jalgaon and the ISO certification process for Chittapur plant is in progress. Environment and Safety management programs are initiated for the mitigation of identified environment aspects as well as safety hazards.

Moreover, the critical environment risks are identified as a part of the Company's risk management identification process and these features in the Company's risk library. The Company regularly reviews its environmental risks and undertakes initiatives to mitigate them.

For us, the environmental performance improvement remains an important pillar of our business success. We are committed towards Environmental, Health and Safety (EHS) management. We also continuously focus on improving resource efficiency in clinker and cement production by optimising energy usage, utilising waste in production processes and targeting higher alternative fuel and raw material usage. In the process, we also endeavour to minimise our impact on climate, water and air.

4. Does the Company have any project related to Clean Development Mechanism? If so, provide details thereof, in about 50 words or so. Also, if yes, whether any environmental compliance report is filed?

The recently commissioned Chittapur cement plant of the Company uses all the latest technologies available. Cross Belt Analysers are installed in the limestone and raw material feeding circuit for optimum utilisation of natural resources. The raw material grinding is achieved with vertical roller mills in finish mode which consumes substantially less electrical energy when compared with conventional ball mill grinding. The preheater is designed with low pressure cyclones for better utilisation of heat energy and kiln burner is provided with multi-channel burner. The clinker cooler is of the latest generation that uses less cooling air i.e. less electrical energy when compared with conventional coolers. The cooler drives are also of the hydraulic type. The complete pyro system is designed for the best and lowest heat energy consumption possible. The cement grinding circuit consists of vertical roller mills in closed circuit so that the cement grinding can be carried out with the optimum electrical energy when compared with conventional ball mill grinding. The quality control systems of latest generation are in place to optimise

consumption of various raw materials.

Orient Cement is active in managing its GHG emissions. The Company is utilising power plant waste i.e. fly ash to manufacture Pozzolana Portland Cement as much as possible and system is designed for the same with one of the best and most accurate feeding systems. The Company is using petcoke as fuel as much as possible which is a by-product from crude oil refineries.

5. Has the Company undertaken any other initiatives on-clean technology, energy efficiency, renewable energy, etc. Y/N. If yes, please give hyperlink for web page etc.

Orient Cement has taken numerous initiatives to implement clean and green technology, energy efficiency and renewable energy perspective. Some of these include: -

- a) The energy efficiency activities in the plant are ongoing. Please refer to Annexure 6 of the Directors' Report of the Annual Report for conservation of energy initiatives. The same is also available on Company's website: www.orientcement.com.
- b) The Chittapur cement plant uses the latest dry process technology with the latest machinery and methodology.
- c) The Company utilizes chemical gypsum (an industrial waste) for the manufacture of cement and 100% utilization of flyash being generated from own captive power plant and also procured from nearby thermal power plants (waste from thermal power plants) in the production of Pozzolana Portland Cement (PPC) .
- d) The Company uses Biomass – Rice Husk (waste material) as an alternate fuel and pet coke in the manufacturing process to substitute the consumption of the fossil fuel/ coal.
- e) The Company has constructed 15 check dams at various locations in and around the plant at Devapur. Rain water harvesting system has been developed at the Jalgaon plant also. A huge pond is being maintained for the collection of rain water at the Chittapur plant. Orient Cement has developed a Reservoir – "Maisamma Sagar" at the Devapur Plant for collecting rain water in the lower most benches during the monsoon season. This is being used for plantation activities and water spraying on roads for suppressing dust besides being used in the power plant and cement plant. The rain water harvesting fulfils the requirement of the mines, power plant and cement plant. This huge reservoir/lake recharges the ground water table of surrounding areas and supports the existence of local flora and fauna. Many bird species can be seen in the area using different habitats extensively for foraging, nesting and roosting in the surrounding vegetation. Fishes in the water reservoir help in maintaining an aquatic ecosystem.
- f) The Company is continuously concentrating on

improving its productivity in terms of production, power consumption and thermal energy consumption. The electrical equipment used in the plant is made energy efficient through usage of Variable Frequency Drives (VFDs) and continuous monitoring. Our focus on operating efficiencies has led to the Company having one of the lowest specific energy and power consumption metrics in the industry.

- g) At Chittapur plant all the electrical drives are of latest IE3 class having the highest energy efficiency. Most of the plant drives where speed control is necessary are provided with Variable Frequency Drives so as to optimise the electrical energy utilisation. All the raw material and fuel storage areas are completely covered to prevent dust and leaching due to rain water which also reduces the energy utilisation.
- h) The Company has installed a sewage treatment plant, a water treatment plant and neutralization pit for treating water and wastewater generated at Plant.

6. Are the Emissions/Waste generated by the Company within the permissible limits given by CPCB/SPCB for the financial year being reported?

Yes, the emissions/ waste generated by the Company are within the permissible limits as prescribed by CPCB/ SPCBs and same are reported.

7. Number of show cause/legal notices received from CPCB/ SPCB which is pending (i.e. not resolved to satisfaction) as on end of financial year.

No show cause/ legal notice from CPCB/ SPCB have been received by any of the Orient Cement's manufacturing plants during the financial year.

Principle 7- RESPONSIBLE PUBLIC POLICY ADVOCACY

1. Is your Company a member of any trade and chamber or association? If yes, name only those major ones that your business deals with.

The Company is member of Cement Manufacturers Association, Cement Sustainability Initiative (CSI), under the aegis of the World Business Council for Sustainable Development (WBCSD), National Human Resource Development (NHRD), Employer's Federation of Southern India (EFI) and National Safety Council (NSC).

2. Have you advocated/lobbied through above associations for the advancement or improvement of public good? Yes / No; if yes specify the broad areas (drop box: Governance and Administration, Economic Reforms, Inclusive Development Policies, Energy security, Water, Food Security, Sustainable Business Principles, Others)

The Company has specific programs/ initiatives/ projects in pursuance of its CSR objectives. The Company has adopted a CSR policy which has been aligned with the requirements of the Companies Act, 2013 and our thrust areas are well aligned to the schedule VII of section 135 of the Companies Act, 2013. The Company has carried out CSR Programs in pursuance of inclusive development, primarily focusing on education, infrastructure development and healthcare support. Focused efforts are made in the identified community development areas to achieve the desired outcomes. Orient Cement's presence has resulted in notable economic improvement of the areas where it has its manufacturing plants. Apart from numerous business opportunities that Orient Cement creates for the local vendors/ suppliers, Orient also undertakes multiple CSR initiative for the local communities. The focus of all such initiatives has been to improve the quality of life of local residents.

2. Are the programs/ projects undertaken through in-house team/own foundation/ external NGO/government structures/any other organization?

Orient Cement has a Board level CSR Committee constituted under the Companies Act, 2013 which assists the Board in discharging social responsibilities. It formulates and monitors implementation framework of "Corporate Social Responsibility Policy", observes practices of Corporate Governance at all levels and provides remedial measures wherever necessary.

Under the framework of its CSR Policy, the Company undertakes social programs/ projects on an ongoing basis. The programs/projects are undertaken through in-house teams to ensure that Orient Cement achieves success in effectively translating the Company's vision of promoting inclusive growth successfully in a focused manner and under

the Company's direct supervision.

3. Have you done any impact assessment of your initiative?

The Company monitors the impact of its CSR initiatives on an ongoing basis and has noted positive outcomes and benefits for the people in and around the Company's plants.

During financial year 2017-18, the Company has, like in previous years, made significant contributions towards promotion of education and social good by providing primary healthcare support in the vicinity of its plants. In the area of education, in the school run by the Company in Devapur, both primary and secondary, over 1500 students are studying on an average per year both in English and Telugu medium. It has hugely impacted the quality of life of the villagers in the vicinity. Few of our initiatives in this direction include:

- To improve the quality of teaching, company has organized structured teacher development program that covered modern teaching methods applied by all Teachers. At Devapur plant all the teaching staff was covered and at Chittapur Plant, the Company sponsored 50 teachers for two days workshop on Modern teaching methods.
- To support talented children who are unable to study due to their financial crisis, Company has awarded 18 talented students during this financial year.
- The Company has two full time doctors including a lady doctor in the dispensary at Devapur and one full time doctor in the dispensary at Chittapur to treat people from the nearby villages.
- Company has constructed 6KM concrete cement road between Itaga village and connecting main road, which has eased congestion, stoppages and number of accidents.
- The Company has undertaken construction of toilet blocks in April, 2017 at Govt. Schools at Siricilla Constituency in Rjanna Siricilla District and that resulted in increase in number of girl students.
- The Sulabh Complex is constructed for the convenience of lorry drivers, cleaners and village people. It is now maintained by the Gram panchayat.
- With a moto to make the drop outs understand their potential and develop employable skills, we have conducted survey in the vicinity of plants and identified 25 girls who are drop-outs at 10th Std. We have conducted, soft skills training, basic computer operations, basic Mathematics and English classes. The course was of 6 months duration.

Conducted motivational, health and exam preparation classes for 8th, 9th and 10th class children at Girijana Balikala Ashrama Unnata Patashala, Devapur.

4. What is your Company's direct contribution to community development projects- Amount in INR and the details of the projects undertaken?

During the year under review, the Company has spent an amount of ₹1478.94 lacs on community development projects. The Company has been working for community development around the Company's manufacturing locations focusing mainly on education, healthcare, sustainable livelihood, social empowerment and infrastructure development.

5. Have you taken steps to ensure that this community development initiative is successfully adopted by the community? Please explain in 50 words or so.

Orient Cement conducts consistent engagement and interaction with the community to ensure that the initiatives undertaken are successfully implemented and addresses specific needs of the community. The Company has taken steps to ensure that the community initiatives benefit the community as per the identified and assessed needs. Projects are evolved out of the identified needs of the communities. This continuous engagement with the communities allows better acceptance and adaptation of the initiatives.

Principle 9 – PROVIDING VALUE TO CUSTOMERS

1. What percentage of customer complaints/consumer cases are pending as on the end of financial year?

Effective redressal mechanism is in place for addressing customer complaints and handling consumer cases. The Company has a well-defined system of addressing customer complaints. There have been nil consumer complaints registered in financial year 2017-18.

2. Does the Company display product information on the product label, over and above what is mandated as per local laws.

Yes, we strictly follow all applicable regulations regarding product labelling. Apart from the information required as per the latest BIS guidelines, which is printed on the packaging after taking approval from BIS, following marketing related information is also included:

- Name and logo of the brand (Birla A1 Premium Cement), Company (Orient Cement), Group (CK Birla),
- Various certifications obtained - ISO 9001, ISO 14001, OHSAS 18001, ISO 50001, TPM Company
- Marketing communication related information - Product tagline - "Majbooti me A1, Bharose me A1, and PST (Pressure Sustaining Technology).

The Company also has a website which provides information about its products benefits.

3. Is there any case filed by any stakeholder against the Company regarding unfair trade practices, irresponsible advertising and/or anti-competitive behavior during the last five years and pending as on end of financial year? If so, provide details thereof, in about 50 words or so.

There is no case against Orient Cement during last five years, relating to unfair trade practices, irresponsible advertising and/or anti-competitive behavior as at the end of the financial year.

4. Did your Company carry out any consumer survey/ consumer satisfaction trends?

Customer Satisfaction Surveys are conducted periodically to assess the consumer satisfaction levels. Besides, we have engaged third party services to understand operational trends in the market place.

FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

To
The Members of **Orient Cement Limited**

Report on the Ind AS Financial Statements

We have audited the accompanying Ind AS financial statements of Orient Cement Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2018, the Statement of Profit and Loss including other comprehensive income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act., read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial control that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Ind AS financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be

included in the audit report under the provisions of the Act and the Rules made thereunder. We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing, issued by the Institute of Chartered Accountants of India, as specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2018, its profit including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of

the Act, we give in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the Order.

2. As required by section 143 (3) of the Act, we report that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- (c) The Balance Sheet, Statement of Profit and Loss including other comprehensive income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
- (d) In our opinion, the aforesaid Ind AS financial statements comply with the Accounting Standards specified under section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
- (e) On the basis of written representations received from the directors as on March 31, 2018, and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2018, from being appointed as a director in terms of section 164 (2) of the Act;

ANNEXURE 1 REFERRED TO IN PARAGRAPH 1 UNDER THE HEADING "REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS" OF OUR AUDIT REPORT OF EVEN DATE TO THE MEMBERS OF ORIENT CEMENT LIMITED AS AT AND FOR THE YEAR ENDED MARCH 31, 2018

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) Majority of fixed assets have been physically verified by the management during the year. However, there is a regular programme of verification of all fixed assets over a period of three years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.
- (c) According to information and explanations given by the management, the title deeds of immovable properties, included in property, plant and equipment are held in the name of the Company.
- (ii) The management has conducted physical verification of inventory at reasonable intervals during the year and no material discrepancies were noticed on such physical verification.
- (iii) According to the information and explanations given to us, the Company has not granted any loans, secured or unsecured, to companies, firms, limited liability partnerships or other parties covered in the register maintained under section 189 of the Companies Act, 2013. Accordingly, the provisions of clause 3(iii)(a), (b) and (c) of the Order are not applicable to the Company and hence not commented upon.
- (iv) In our opinion and according to the information and explanations given to us, there are no loans, investments, guarantees and securities granted in respect of which provisions of section 185 and 186 of the Companies Act 2013 are applicable and hence not commented upon.
- (v) The Company has not accepted any deposits from the public.
- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the rules made by the Central Government for the maintenance of cost records under section 148(1) of the Companies Act, 2013, related to the manufacture of cement, and are of the opinion that prima facie, the specified accounts and

records have been made and maintained. We have not, however, made a detailed examination of the same.

- (vii) (a) Undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales-tax, service tax, goods and service tax, duty of custom, duty of excise, value added tax, cess and other material statutory dues have generally been regularly deposited with the appropriate authorities.
- (b) According to the information and explanations given to us, no undisputed dues in respect of provident fund, employees' state insurance, income-tax, service tax, sales-tax, goods and service tax, duty of custom, duty of excise, value added tax, cess and other material statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable.
- (c) According to the records of the Company, the dues outstanding in respect of income-tax, sales-tax, service tax, goods and service tax, duty on custom, duty of excise and value added tax on account of any dispute, are as follows:

Name of the statute	Nature of dues	Amount (₹ in Lacs)	Period to which the amount relates (Financial Year)	Forum where dispute is pending
Central Excise and Customs Act, 1944	Disallowance of Cenvat Credit on input and capital goods	3,766.91	April 2003 to June 2016	Commissioner (Appeals) / CESTAT / High Court
A. P. Sales Tax / A. P. VAT Act / Central Sales Tax Act, 1956	Demand on second sales and freight charges realised separately by raising debit invoices and other matters	203.02	1983-84 to 2004-05	Commissioner / Appellate Dy. Commissioner / Sales tax Appellate Tribunal / High Court
Tamil Nadu / Karnataka / Maharashtra VAT Act	Non-submission of forms, penalty, etc	57.94	1996-97, 2004-05, 2008-09, 2014-15	Joint Commissioner / Appellate Deputy Commissioner
Income Tax Act, 1961	Disallowances of certain expenses	216.44	2012-13, 2014-15	Commissioner (Appeals)

- (viii) According to information and explanations given by the management, we are of the opinion that the Company has not defaulted in repayment of loans and borrowings dues to banks and government. The Company did not have any outstanding dues in respect of debenture holders and on account of loans and borrowings in respect of financial institutions during the year.
- (ix) According to the information and explanations given by the management, term loans were applied for the purpose for which the loans were obtained. The Company has not raised any money way of initial public offer / further public offer during the year.
- (x) We have been informed that an employee of the Company in collusion with a vendor has misappropriated stock amounting ₹ 97 lacs during the year under audit. As at the year end, investigations are in progress and the employee has been dismissed. Based upon the audit procedures performed for the purpose of reporting the true and fair view of the financial statements and according to the information and explanations given by the management, we report that no fraud by the Company has been noticed or reported during the year. Further, no material fraud on the Company by the officers and employees of the Company, except as stated above, has been noticed or reported.
- (xi) According to the information and explanations given by the management, the managerial remuneration has been paid / provided in accordance with the requisite approvals mandated by the provisions of section 197 read with Schedule V to the Companies Act, 2013.
- (xii) In our opinion, the Company is not a nidhi company. Therefore, the provisions of clause 3(xii) of the order are not applicable to the Company and hence not commented upon.
- (xiii) According to the information and explanations given by the management, transactions with the related parties are in compliance with section 177 and 188 of Companies Act, 2013 where applicable and the details have been disclosed in the Notes to the Financial Statements, as required by the applicable accounting standards.
- (xiv) According to the information and explanations given to us and on an overall examination of the balance sheet, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under review and hence not commented upon.
- (xv) According to information and explanations given by the management, the Company has not entered into any non-cash transactions with directors or persons connected with him.
- (xvi) According to the information and explanations given to us, the provisions of section 45-IA of the Reserve Bank of India Act, 1934 are not applicable to the Company.

ANNEXURE 2 REFERRED TO IN PARAGRAPH 2(F) UNDER THE HEADING “REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS” OF OUR AUDIT REPORT OF EVEN DATE TO THE MEMBERS OF ORIENT CEMENT LIMITED AS AT AND FOR THE YEAR ENDED MARCH 31, 2018

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Orient Cement Limited (“the Company”) as of March 31, 2018 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing as specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating

effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and

not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance

Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to the Financial Statements

as at and for the year ended 31st March, 2018

1. Corporate Information

Orient Cement Limited ("the Company") is a public company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. Its shares are listed on National and Bombay Stock exchanges in India. The cement undertaking of Orient Paper & Industries Limited (OPIL) had been transferred to the Company on a going concern basis w.e.f. 1st April, 2012, pursuant to the scheme of arrangement approved by the Hon'ble Orissa High Court.

The Company is primarily engaged in the manufacture and sale of Cement and its manufacturing facilities at present are located at Devapur in Telangana, Chittapur in Karnataka and Jalgaon in Maharashtra.

The financial statements were authorised for issue in accordance with a resolution of the board of directors on 3rd May, 2018.

2. Basis Of Preparation

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards ("Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time).

These financial statements have been prepared on a historical cost basis, except for certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments).

2.1 Summary of significant accounting policies

(a) Property, plant and equipment

Capital work in progress, plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of replacing part of the plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in the Statement of Profit and Loss as incurred. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

Land and buildings are measured at cost less accumulated depreciation on buildings and impairment losses, if any.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Gains or losses arising from derecognition of the asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss when the asset is derecognised.

Depreciation is provided under straight line basis using the estimated useful lives of the assets as follows -

Class of Asset	Useful Lives estimated by the management
Factory Buildings	30 years
Non-Factory Buildings	5 to 60 years
Railway Sidings	15 years
Plant and equipment including continuous process plant	5 to 25 years
Power plant	40 years
Furniture & Fixtures	8 to 10 years
Computers	3 years
Office Equipment	5 years
Vehicles	10 years

Notes to the Financial Statements (contd.)

as at and for the year ended 31st March, 2018

Depreciation on fixed assets added / disposed-off during the year is provided on pro-rata basis with reference to the date of addition/disposal. The management has estimated, supported by technical assessment by experts, the useful lives of certain plant and equipment as 5 to 20 years. These lives are lower than those indicated in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

b) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses, if any. Internally generated intangible assets, excluding capitalised development costs, are not capitalised and expenditure is reflected in the Statement of Profit and Loss in the year in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates.

Intangible assets with indefinite useful lives are not amortised, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss.

A summary of the policies applied to the Company's intangible assets is, as follows:

Class of Intangible Asset	Useful Lives estimated by the management	Amortisation method used
Specialised Software	3 years	Amortised on a straight-line basis over the period of Agreement
Mining Rights	10 to 50 years	Amortised on a straight-line basis over the period of Licence / Agreement (reflective of usages pattern)

(c) Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current / non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

Notes to the Financial Statements (contd.)

as at and for the year ended 31st March, 2018

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

(d) Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

A lease is classified at the inception date as a finance lease or an operating lease.

Where the Company is lessee

A lease that transfers substantially all the risks and rewards incidental to ownership to the Company is classified as a finance lease. Finance leases are capitalised at the commencement of the lease at the inception date fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

Operating lease payments are recognised as an expense in the Statement of Profit and Loss on a straight-line basis over the lease term.

Where the Company is the lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Assets subject to operating leases are included in property, plant and equipment. Lease income on an operating lease is recognised in the Statement of Profit and Loss on a straight-line basis over the lease term. Costs, including depreciation, are recognised as an expense in the Statement of Profit and Loss.

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

(e) Borrowing costs

Borrowing cost includes interest, amortisation of ancillary costs incurred in connection with the borrowings and exchange differences to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs directly attributable to the acquisition or construction of an asset that necessarily takes a substantial

Notes to the Financial Statements (contd.)

as at and for the year ended 31st March, 2018

period of time to get ready for its intended use are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the year they occur.

(f) Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

The Company bases its impairment calculation on detailed budgets and forecast calculations which are prepared separately for each of the Company's cash-generating units to which the individual assets are allocated. Impairment losses of continuing operations, including impairment on inventories, are recognised in the Statement of Profit and Loss.

For assets, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the Statement of Profit and Loss.

Intangible assets with indefinite useful lives are tested for impairment annually at the CGU level, as appropriate, and when circumstances indicate that the carrying value may be impaired.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

(g) Government grants

Grants and subsidies from the government are recognised when there is reasonable assurance that (i) the Company will comply with the conditions attached to them, and (ii) the grant/subsidy will be received.

When the grant or subsidy relates to revenue, it is recognised as income on a systematic basis in the Statement of Profit and Loss over the periods necessary to match them with the related costs, which they are intended to compensate. Where the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

When the Company receives grants of non-monetary assets, the asset and the grant are recorded at fair value amounts and released to the Statement of Profit and Loss over the expected useful life in a pattern of consumption of the benefit of the underlying asset i.e. by equal annual instalments. When loans or similar assistance are provided by governments or related institutions, with an interest rate below the current applicable market rate, the effect of this favourable interest is regarded as a government grant. The loan or assistance is initially recognised and measured at fair value and the government grant is measured as the difference between the initial carrying value of the loan and the proceeds received. The loan is subsequently measured as per the accounting policy applicable to financial liabilities in respect of loans / assistances received subsequent to the date of transition.

Notes to the Financial Statements (contd.)

as at and for the year ended 31st March, 2018

(h) Inventories

Raw materials and stores and spares are valued at lower of cost and net realisable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost of raw materials and stores and spares is determined on moving weighted average method.

Work-in-progress and finished goods are valued at lower of cost and net realisable value. Cost includes direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity. Cost of finished goods includes excise duty and is determined on annual weighted average basis.

Saleable scrap, whose cost is not identifiable, is valued at net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

(i) Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government. The Company has concluded that it is the "principal" in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks.

Based on the Educational Material on Ind AS 18 issued by the ICAI, the Company considers that recovery of excise duty flows to the Company on its own account. This is for the reason that it is a liability of the manufacturer which forms part of the cost of production, irrespective of whether the goods are sold or not. Since the recovery of excise duty flows to the Company on its own account, revenue includes excise duty. However, Sales tax/ Value Added tax (VAT) / Goods and Service tax (GST) is not received by the Company on its own account. It is collected on behalf of the government and accordingly, it is excluded from revenue.

The following specific recognition criteria must also be met before revenue is recognised:

Sale of goods

Revenue from sale of goods is recognised when all the significant risks and rewards of ownership of the goods have been passed to the buyer, usually on delivery of the goods. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates.

Sale of power

Revenue from sale of power is recognised when delivered and is measured based on rates as per bilateral contractual agreements with buyers / at rate arrived at based on the principles laid down under the relevant tariff regulations as notified by the regulatory bodies, as applicable.

(j) Foreign currency transactions and balances

The financial statements are presented in INR, which is the Company's functional currency. Foreign currency transactions are initially recorded at functional currency spot rates at the date the transaction first qualifies for recognition.

Foreign currency monetary items are translated using the functional currency spot rates prevailing at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction. Non-monetary items, which are measured at fair value or other similar valuation denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.

Exchange differences arising on the settlement or translation of monetary items are recognised in the Statement of Profit and Loss in the period in which they arise.

Notes to the Financial Statements (contd.)

as at and for the year ended 31st March, 2018

(k) Retirement and other employee benefits

Retirement benefit in the form of Provident Fund and Superannuation Schemes are defined contribution schemes. The Company has no obligation, other than the contribution payable to the respective funds. The Company recognises contribution payable to the provident fund scheme as an expenditure, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognised as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognised as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

Gratuity liability is funded defined benefit obligation and is provided for on the basis of actuarial valuation done on projected unit credit method at the balance sheet date.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through Other Comprehensive Income in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

The Company treats accumulated leaves expected to be carried forward beyond twelve months, as long term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the end of each financial year. The Company presents the leave as current liability in the balance sheet, to the extent it does not have an unconditional right to defer its settlement beyond 12 months after the reporting date. Where the Company has unconditional legal and contractual right to defer the settlement for the period beyond 12 months, the same is presented as non-current liability. Actuarial gains/losses are immediately taken to the Statement of Profit and Loss and are not deferred.

(l) Income taxes

Tax expense comprises current and deferred tax. Current income-tax is measured at the amount expected to be paid to or recovered from the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current income tax relating to items recognised outside Statement of Profit and Loss is recognised outside Statement of Profit and Loss (either in other comprehensive income or in equity). Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted at the reporting date. Deferred tax relating to items recognised outside Statement of Profit and Loss is recognised outside Statement of Profit and Loss (either in other comprehensive income or in equity).

Deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Notes to the Financial Statements (contd.)

as at and for the year ended 31st March, 2018

Minimum alternate tax (MAT) paid in a year is charged to the statement of profit and loss as current tax. The Company recognises MAT credit available as deferred tax asset only to the extent it is probable that sufficient taxable profit will be available to allow all or part of MAT credit to be utilised during the specified period, i.e., the period for which such credit is allowed to be utilised.

(m) Segment reporting

Identification of segments

The Company's operating businesses are organised and managed separately according to the nature of products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. The analysis of geographical segments is based on the areas in which the customers of the Company are located.

Allocation of common costs

Common allocable costs are allocated to each segment on a case to case basis applying the ratio, appropriate to each relevant case. Revenue and expenses, which relate to the enterprise as a whole and are not allocable to segment on a reasonable basis, are included under the head "Unallocated".

Unallocated items

Unallocated items include general corporate income and expense items which are not allocated to any business segment.

Segment accounting policies

The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole.

(n) Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

(o) Provisions

A provision is recognised when the Company has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

(p) Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the financial statements.

(q) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and in hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

Notes to the Financial Statements (contd.)

as at and for the year ended 31st March, 2018

(r) Employee stock options

Certain employees of the Company receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments (equity-settled transactions).

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model. The cost is recognised, together with a corresponding increase in reserves, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Company's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value.

When the terms of an equity-settled award are modified, the minimum expense recognised is the expense had the terms had not been modified, if the original terms of the award are met. An additional expense is recognised for any modification that increases the total fair value of the share-based payment transaction, or is otherwise beneficial to the employee as measured at the date of modification. Where an award is cancelled by the entity or by the counterparty, any remaining element of the fair value of the award is expensed immediately through profit or loss.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

(s) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement

Subsequent measurement of financial assets is described below -

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method.

Equity investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income, subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

Notes to the Financial Statements (contd.)

as at and for the year ended 31st March, 2018

If the Company decides to classify an equity instrument as FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to the Statement of Profit and Loss, even on sale of investment.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the Statement of Profit and Loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when:

- ▶ The rights to receive cash flows from the asset have expired, or
- ▶ The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of financial assets

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each reporting period. The Company recognises a loss allowance for expected credit losses on financial asset. In case of trade receivables, the Company follows the simplified approach permitted by Ind AS 109 – Financial Instruments for recognition of impairment loss allowance.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Subsequent measurement

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in the Statement of Profit and Loss when the liabilities are derecognised.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Profit and Loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

31. Significant accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

There are no significant areas involving a high degree of judgement or complexity.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

Defined benefit plans

The cost of defined benefit gratuity plan and its present value of the obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, an employee benefit obligation is highly sensitive to changes in these assumptions particularly the discount rate and estimate of future salary increase. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds.

The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases are based on expected future inflation rates.

Further details about gratuity obligations are given in Note 32.

Share-based payments

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them. The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in Note 33.

32. Gratuity and other post-employment benefit plans

The Company has a defined benefit gratuity plan. The gratuity plan is governed by The Payment of Gratuity Act, 1972. Under the act, employee who has completed five years of service is entitled to specific benefit. The scheme is funded with an insurance company in the form of qualifying insurance policy.

The following tables summarise the components of net benefit expense recognised in the Statement of Profit and Loss and the funded status and amounts recognised in the balance sheet for the plan.

Return on plan assets, excluding amount recognised in net interest expense	(8.84)	(17.77)
Closing fair value of plan assets	760.86	881.01

The Company expects to contribute ₹ 450.00 lacs (31st March, 2017 : ₹ 400.00 lacs) to gratuity in the next year.

The major categories of plan assets as a percentage of the fair value of total plan assets are as follows:

Investments with insurer	100%	100%
--------------------------	------	------

The principal assumptions used in determining gratuity obligations for the Company's plans are shown below:

	31st March, 2018	31st March, 2017
Discount rate	7.65%	7.50%
Expected rate of return on assets	7.55%	7.55%
Future salary increases:	7.00%	7.00%
Mortality Rate (% of IALM 06-08)	100%	100%

The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

The overall expected rate of return on assets is determined based on the market prices prevailing on that date, applicable to the period over which the obligation is to be settled.

33. Employee stock option scheme

The Company provides share-based payment schemes to its employees. The Company had formulated an employee stock option scheme, namely Employee Stock Option Scheme 2015 (ESOP) during the year ended 31st March, 2015 for grant of ESOP. The relevant details of the scheme and grant are as below:

On 8th May 2015, the Board of Directors approved the Employee Stock Option Scheme 2015 for issue of stock options to the key employees of the Company. According to the scheme, the employee selected by the remuneration committee from time to time will be entitled to options, subject to satisfaction of the prescribed vesting conditions viz, continuing employment on the rolls of the Company as on 1st April 2015 as well as new employees who replaces the old eligible employee and joins the employment of the Company before 30th June 2017 and continuing employment till grant date. The other relevant terms of the grant are as below:

Vesting Period	40% vest after 3 years 60% vest after 4 years
Exercise Period	4 Years
Expected Life	5.6 Years
Exercise Price (₹)	135
Market price as on 4th August, 2015 (₹)	183.25

The details of the activity under the scheme are as below:

	(No of options)	
	31st March, 2018	31st March, 2017
Outstanding at the beginning of the year	16,48,900	16,48,900
Granted during the year	-	-
Cancelled during the year	1,75,000	-
Outstanding at the end of the year	14,73,900	16,48,900
Exercisable at the end of the year	-	-

The weighted average remaining contractual life for the stock options outstanding as at 31st March, 2018 is 2.93 years (31st March, 2017 3.93 years).

The weighted average fair value of the stock options granted was ₹ 105.64. The Black Scholes valuation model has been used for computing the weighted average fair value considering the following inputs:

	31st March, 2018	31st March, 2017
Dividend yield (%)	0.96%	0.96%
Expected volatility	44.90%	44.90%
Risk-free Interest rate	8%	8%
Weighted average share price (₹)	183.50	183.50
Exercise price (₹)	135	135
Expected life of options granted in years	5.6	5.6

The expected life of the stock is based on current expectations and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility over a period similar to the life of the options is indicative of future trends, which may also not necessarily be the actual outcome.

40. The management has considered that the Company has a single reportable segment based on nature of products, production process, regulatory environment, customers and distribution methods.

Further, the Company is engaged in single product line of manufacturing and selling cement and its customers and non-current assets are located in India only.

41. Financial risk management objectives and policies

The Company's financial liabilities comprise loans and borrowings, security deposits, and trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's financial assets include trade and other receivables, cash and cash equivalents.

The Company is exposed to market risk, credit risk and liquidity risk. The Company has a Risk management policy and its management is supported by a Risk management committee that advises on risks and the appropriate financial risk governance framework for the Company. The Risk management committee provides assurance to the Company's management that the Company's risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

Notes to the Financial Statements (contd.)

as at and for the year ended 31st March, 2018

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk, such as commodity price risk and equity price risk. Financial instruments affected by market risk include trade payables, trade receivables, borrowings, etc.

Interest rate risk

The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's debt obligations with floating interest rates.

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows.

		(₹ in Lacs)	
		Increase/ decrease in basis points	Effect on profit before tax
31 March 2018	INR	50 basis points	588.00
31 March 2017	INR	50 basis points	584.78

Foreign currency risk

The Company's exposure to the risk of changes in foreign exchange rates is not significant.

Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables).

Trade receivables

Customer credit risk is managed by the respective department subject to Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on individual credit limits as defined by the Company. Outstanding customer receivables are regularly monitored.

An impairment analysis is performed at each reporting date on an individual basis. The calculation is based on historical data of credit losses.

The ageing analysis of the receivables (net of provision) has been considered from the date the invoice falls due.

(₹ in Lacs)					
Trade Receivable	< 30 days	31 - 90 Days	91 to 180 days	> 180 days	Total
Mar-18	10,423.73	4,201.47	412.52	467.75	15,505.47
Mar-17	6,099.14	3,144.00	527.00	783.00	10,553.14

Liquidity risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations or at a reasonable price. The Company's treasury department is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management. Management monitors the Company's net liquidity position through rolling forecasts on the basis of expected cash flows.

The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of cash credits, bank loans among others.

42. Capital management

For the purpose of the Company's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders and issue new shares. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company's policy is to keep the gearing ratio between 0.50 to 0.55. The Company includes within net debt, interest bearing loans and borrowings, less cash and cash equivalents.

(₹ in Lacs)		
	31st March, 2018	31st March, 2017

as at and for the year ended 31st March, 2018

Ind AS 115 Revenue from Contracts with Customers

The Company is currently evaluating the impact of implementation of Ind AS 115 "Revenue from Contracts with Customers" which is applicable to it w.e.f April 01, 2018. However, based on the evaluation done so far and based on the arrangement that the Company has with its customers for sale of its products, the implementation of Ind AS 115 will not have any significant recognition and measurement impact. However, there will be additional presentation and disclosure requirement which will be provided in the next year's financial statements.

Amendments to Ind AS 12 Recognition of Deferred Tax Assets for Unrealised Losses

The amendments clarify that an entity needs to consider whether tax law restricts the sources of taxable profits against which it may make deductions on the reversal of that deductible temporary difference. Furthermore, the amendments provide guidance on how an entity should determine future taxable profits and explain the circumstances in which taxable profit may include the recovery of some assets for more than their carrying amount.

These amendments are effective for annual periods beginning on or after 1 April 2018. These amendments are not expected to have any impact on the Company as the Company has no deductible temporary differences or assets that are in the scope of the amendments.

Appendix B to Ind AS 21 Foreign Currency Transactions and Advance Consideration

The Appendix clarifies that, in determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability relating to advance consideration, the date of the transaction is the date on which an entity initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, then the entity must determine the transaction date for each payment or receipt of advance consideration.

The Appendix is effective for annual periods beginning on or after 1 April 2018. However, since the Company's current practice is in line with the Interpretation, the Company does not expect any effect on its financial statements.

Amendments to Ind AS 112 Disclosure of Interests in Other Entities, Ind AS 40 Investment Property and Ind AS 28 Investments in Associates and Joint Ventures are not applicable to the Company.
